FARMINGTON, Conn., July 31, 2018 – Horizon Technology Finance Corporation (NASDAQ: HRZN) (the “Company” or “Horizon”), a leading specialty finance company that provides capital in the form of secured loans to venture capital backed companies in the technology, life science, healthcare information and services, and cleantech industries, today announced its financial results for the second quarter ended June 30, 2018.

- Net asset value equaled \$133.8 million, or \$11.60 per share, at quarter end

- In June, established Horizon Secured Loan Fund I LLC, a joint venture with Arena Investors, and secured initial \$100 million debt commitment from U.S. based insurance company

“During the second quarter, we grew our portfolio and committed backlog, while achieving a loan portfolio yield of 15.3%,” said Robert D. Pomeroy, Jr., Chairman and Chief Executive Officer of Horizon. “We also took steps to expand our venture lending brand and enhance growth opportunities with the establishment of our new joint venture, which made its first investment during the second quarter.”

Mr. Pomeroy continued, “As we progress through the remainder of the year, we believe we remain well positioned to capitalize on strong demand for our venture debt products as we continue to provide growth capital to innovative companies in our core markets. Our priority continues to be growing our portfolio and earnings power with a focus on credit quality and providing shareholders with distributions and upside potential from our warrant and equity positions.”

Operating Results

Total investment income was \$7.3 million for the three months ended June 30, 2018, as compared to \$5.9 million for the three months ended June 30, 2017. The year-over-year increase in total investment income is primarily due to higher interest income on investments resulting from the larger average size of the loan portfolio and an increase in the London InterBank Offered Rate. For the six months ended June 30, 2018 and 2017, total investment income was \$14.5 million and \$12.8 million, respectively.

The Company's dollar-weighted annualized yield on average debt investments for the three months ended June 30, 2018 and 2017 was 15.3% and 14.7%, respectively. Horizon's dollar-weighted annualized yield on average debt investments for the six months ended June 30, 2018 and 2017 was 14.8% and 15.1%, respectively.

The Company calculates the yield on dollar-weighted average debt investments for any period measured as (1) total investment income during the period divided by (2) the average of the fair value of debt investments outstanding on (a) the last day of the calendar month immediately preceding the first day of the period and (b) the last day of each calendar month during the period. The dollar-weighted annualized yield on average debt investments is higher than what investors will realize because it does not reflect expenses or any sales load paid by investors.

Total net expenses for the three months ended June 30, 2018 were \$4.0 million, as compared to \$3.1 million for the three months ended June 30, 2017. Interest expense increased year-over-year primarily due to an increase in average borrowings. Base management fee increased year-over-year primarily due to an increase in the average size of the investment portfolio. For the three months ended June 30, 2018, incentive fee expense was \$0.8 million, as compared to \$0.4 million for the three months ended June 30, 2017. During the three months ended June 30, 2018, our Advisor waived performance based incentive fees of \$0.2 million which resulted in \$0.2 million of reduced expense and additional net investment income for the three months ended June 30, 2018. The incentive fee on pre-incentive fee net investment income was subject to the incentive fee cap and deferral mechanism under the Investment Management Agreement, which resulted in \$0.2 million of reduced expense and additional net investment income for the three months ended June 30, 2017.

Net investment income for the three months ended June 30, 2018 was \$3.3 million, or \$0.29 per share, as compared to \$2.8 million, or \$0.24 per share, for the three months ended June 30, 2017. For the six months ended June 30, 2018 and 2017 net investment income totaled \$6.5 million, or \$0.56 per share, and \$6.1 million, or \$0.53 per share, respectively.

For the three months ended June 30, 2018, the net realized loss on investments was \$0.2 million, or \$0.01 per share, as compared to net realized gain on investments of \$0.2 million, or \$0.02 per share, for the three months ended June 30, 2017. For the six months ended June 30, 2018 and 2017, the net realized loss on investments was \$0.3 million, or \$0.03 per share, and \$10.7 million, or \$0.93 per share, respectively.

For the three months ended June 30, 2018, the net unrealized depreciation on investments was \$0.2 million, or \$0.02 per share, as compared to net unrealized depreciation on investments of \$2.2 million, or \$0.19 per share, for the three months ended June 30, 2017. For the six months ended June 30, 2018, net unrealized depreciation on investments was \$0.7 million, or \$0.05 per share, as compared to net unrealized appreciation on investments of \$8.9 million, or \$0.78 per share, for the six months ended June 30, 2017.

(\$ in thousands)	June 30, 2018			December 31, 2017		
	Number of Investments	Debt Investments at Fair Value	Percentage of Debt Investments	Number of Investments	Debt Investments at Fair Value	Percentage of Debt Investments
Credit Rating

As of June 30, 2018 and December 31, 2017, Horizon's loan portfolio had a weighted average credit rating of 3.0, with 4 being the highest credit quality rating and 3 being the rating for a standard level of risk. A rating of 2 represents an increased level of risk and, while no loss is currently anticipated for a 2-rated loan, there is potential for future loss of principal. A rating of 1 represents a deteriorating credit quality and high degree of risk of loss of principal. As of June 30, 2018, there were no debt investments with an internal credit rating of 1. As of December 31, 2017, there was one debt investment with an internal credit rating of 1, with a cost of \$3.0 million and a fair value of \$2.9 million.

Liquidity and Capital Resources

At June 30, 2018, there was \$68.0 million outstanding principal balance under the \$100.0 million revolving credit facility (the "Key Facility"). The Key Facility allows for an increase in the total loan commitment up to an aggregate commitment of \$150.0 million. There can be no assurance that any additional lenders will make any commitments under the Key Facility.

On April 6, 2018, the Company amended the Key Facility to increase the aggregate commitments to \$100.0 million and extend the revolving period to April 6, 2021 and the maturity date to April 6, 2023.

As of June 30, 2018, the Company's debt to equity leverage ratio was 79%, and the asset coverage ratio for borrowed amounts was 227%.

Joint Venture

Horizon and Arena Investors, a global investment firm, established a joint venture, Horizon Secured Loan Fund I LLC ("HSLFI") which is owned and controlled by them on an equal basis.

Each of Horizon and Arena has initially committed to provide up to \$25 million of equity to the joint venture, and collectively intend to contribute equity capital, in the aggregate, of up to \$100 million. In order to enhance HSLFI's capacity to pursue attractive origination activities, a large U.S. based insurance company ("Lender") has provided an initial \$100 million senior secured debt commitment, which may be increased to \$200 million with the mutual agreement of HSLFI and the Lender.

Stock Repurchase Program

On April 27, 2018, the Company's board of directors extended the Company's previously authorized stock repurchase program until the earlier of June 30, 2019 or the repurchase of \$5.0 million of the Company's common stock. Ex-Dividend Date	Record Date	Payment Date	Amount Per Share
September 17, 2018	September 18, 2018	October 16, 2018	\$0.10
October 17, 2018	October 18, 2018	November 15, 2018	\$0.10
November 16, 2018	November 19, 2018	December 14, 2018	\$0.10

Spillover income includes any ordinary income and net capital gains from the preceding tax years that were not distributed during such tax years.

When declaring distributions, the Horizon board of directors reviews estimates of taxable income available for distribution, which may differ from consolidated net income under generally accepted accounting principles due to (i) changes in unrealized appreciation and depreciation, (ii) temporary and permanent differences in income and expense recognition, and (iii) the amount of spillover income carried over from a given year for distribution in the following year. The final determination of taxable income for each tax year, as well as the tax attributes for distributions in such tax year, will be made after the close of the tax year.
