

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

Form 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE QUARTERLY PERIOD ENDED MARCH 31, 2026

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE TRANSITION PERIOD FROM \_\_\_\_ TO

COMMISSION FILE NUMBER: 814-00802

**HORIZON TECHNOLOGY FINANCE CORPORATION**

*(Exact name of registrant as specified in its charter)*

**Delaware**

*(State or other jurisdiction of incorporation or organization)*

**312 Farmington Avenue  
Farmington, CT**

*(Address of principal executive offices)*

**27-2114934**

*(I.R.S. Employer Identification No.)*

**06032**

*(Zip Code)*

**(860) 676-8654**

**(Registrant's telephone number, including area code)**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
Emerging growth company	<input type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

The number of shares of the registrant's common stock traded under the symbol "HRZN" on the Nasdaq Global Select Market, \$0.001 par value per share, outstanding as of May 5, 2026 was 68,261,111.

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Ticker symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.001 per share	HRZN	The Nasdaq Stock Market LLC
6.25% Notes due 2027	HTFC	The New York Stock Exchange

**Horizon Technology Finance Corporation and Subsidiaries**
**Consolidated Statements of Cash Flows (Unaudited)**  
**(Dollars in thousands)**

	<b>For the three months ended March 31,</b>	
	<b>2026</b>	<b>2025</b>
<b>Cash flows from operating activities:</b>		
Net increase (decrease) in net assets resulting from operations	\$ 2,778	\$ (21,436)
Adjustments to reconcile net increase (decrease) in net assets resulting from operations to net cash used in operating activities:		
Amortization of debt issuance costs	567	653
Net realized loss (gain) on investments	161	(1)
Net realized loss on extinguishment of debt	1,432	—
Net unrealized depreciation on investments	4,600	32,156
Purchase of investments	(90,004)	(73,689)
Principal payments received on investments	38,048	50,745
PIK interest on investments	(1,278)	(285)
Proceeds from sale of investments	104	1
Warrants received in settlement of fee income	—	(5)
Accrued interest converted to common stock	32	—
Changes in assets and liabilities:		
Increase in interest receivable	(977)	(931)
Decrease in end-of-term payments	321	1,111
Decrease in unearned income	(84)	(584)
(Increase) decrease in other assets	(1,051)	125
Increase (decrease) in other accrued expenses	1,393	(1,033)
Increase (decrease) in base management fee payable	66	(12)
Increase in incentive fee payable	1,765	—
Net cash used in operating activities	<u>(42,127)</u>	<u>(13,185)</u>
<b>Cash flows from financing activities:</b>		
Repayment of 2022 Asset-Backed Notes	—	(16,070)
Repayment of 2026 Notes	(57,500)	—
Proceeds from issuance of common stock, net of offering costs	10	3,602
Advances on Credit Facilities	45,000	15,000
Debt issuance costs	(124)	(10)
Distributions paid	(14,690)	(12,741)
Net cash used in financing activities	<u>(27,304)</u>	<u>(10,219)</u>
Net decrease in cash, cash equivalents and restricted cash	<u>(69,431)</u>	<u>(23,404)</u>
<b>Cash, cash equivalents and restricted cash:</b>		
Beginning of period	142,693	100,868
End of period	<u>\$ 73,262</u>	<u>\$ 77,464</u>
Supplemental disclosure of cash flow information:		
Cash paid for interest	<u>\$ 6,416</u>	<u>\$ 7,962</u>
Supplemental non-cash operating and financing activities:		
Refinanced debt investment balances	<u>\$ 30,000</u>	<u>\$ 28,750</u>
Warrant investments received and recorded as unearned income	<u>\$ 913</u>	<u>\$ 160</u>
Debt converted to common stock	<u>\$ 15,050</u>	<u>\$ —</u>
Distributions payable	<u>\$ 2,872</u>	<u>\$ 13,310</u>
End-of-term payments receivable	<u>\$ 9,421</u>	<u>\$ 12,417</u>
Non-cash income	<u>\$ 2,762</u>	<u>\$ 2,009</u>

The following table provides a reconciliation of cash, cash equivalents and restricted cash in the consolidated statements of assets and liabilities to the total amount shown at the end of the applicable period in the consolidated statements of cash flows:

	<b>March 31,</b>	
	<b>2026</b>	<b>2025</b>
Cash	\$ 34,489	\$ 33,033
Investments in money market funds	36,139	40,968
Restricted investments in money market funds	2,634	3,463
Total cash, cash equivalents and restricted cash	<u>\$ 73,262</u>	<u>\$ 77,464</u>

**Horizon Technology Finance Corporation and Subsidiaries****Consolidated Schedule of Investments (Unaudited)****March 31, 2026****(Dollars in thousands)**

- (1) All investments of the Company are in entities which are organized under the laws of the United States and have a principal place of business in the United States, unless otherwise noted.
- (2) Has been pledged as collateral under the revolving credit facility (the “Key Facility”) with KeyBank National Association (“Key”), a credit facility (the “NYL Facility”) led by New York Life Insurance Company and/or a credit facility (the “Nuveen Facility”, together with the Key Facility and the NYL Facility, the “Credit Facilities”) led by Nuveen Alternatives Advisors LLC.
- (3) All non-affiliate investments are investments in which the Company owns less than 5% of the voting securities of the portfolio company. All non-controlled affiliate investments are investments in which the Company owns 5% or more of the voting securities of the portfolio company but not more than 25% of the voting securities of the portfolio company. All controlled affiliate investments are investments in which the Company owns more than 25% of the portfolio company’s outstanding voting securities or has the power to exercise control over management or policies of such portfolio company (including through a management agreement).
- (4) All interest is payable in cash due monthly in arrears, unless otherwise indicated, and applies only to the Company’s debt investments. Interest rate is the annual interest rate on the debt investment and does not include end-of-term payments (“ETPs”), and any additional fees related to the investments, such as deferred interest, commitment fees or prepayment fees. Debt investments are at variable rates for the term of the debt investment, unless otherwise indicated. For each debt investment, the current interest rate in effect as of March 31, 2026 is provided.
- (5) Portfolio company is a public company.
- (6) For debt investments, represents principal balance less unearned income.
- (7) Warrants, Equity and Other Investments are non-income producing.
- (8) Value as a percent of net assets.
- (9) As of March 31, 2026, 0.6% and 0.0% the Company's total assets on a cost and fair value basis, respectively, are in non-qualifying assets under Section 55(a) of the 1940 Act. Under the 1940 Act, the Company may not acquire any non-qualifying assets unless, at the time the acquisition is made, qualifying assets represent at least 70% of the Company’s total assets.
- (10) ETPs are contractual fixed-interest payments due in cash at the maturity date of the applicable debt investment, including upon any prepayment, and are a fixed percentage of the original principal balance of the debt investments unless otherwise noted. Interest will accrue during the life of the debt investment on each ETP and will be recognized as non-cash income until it is actually paid. Therefore, a portion of the incentive fee the Company may pay its Advisor will be based on income that the Company has not yet received in cash.
- (11) Investment has a PIK feature in which the accrued interest or a portion of the accrued interest is added to the then-outstanding principal amount of the investment.
- (12) The fair value of the investment was valued using significant unobservable inputs.
- (13) Debt investment is on non-accrual status as of March 31, 2026.
- (14) Debt investment is on non-accrual status as of March 31, 2026 and interest payments will be recognized as income on a cash basis.
- (15) The investment originally consisted of debt investments in Evelo Biosciences Inc. (“Evelo”). Evelo was a clinical stage life science company that was unable to raise additional capital to continue as a going concern and, through a series of transactions, Evelo became a subsidiary of Evelo Holdings, Inc. (“Evelo Holdings”) and Evelo Holdings assumed the indebtedness of Evelo to the Company. Evelo Holdings is not an operating company but holds certain contractual rights to contingent payments and owns equity in Evelo, as well as certain assets it seeks to sell. The Company has a first priority security interest in the assets of Evelo Holdings, so if any payments are received by Evelo Holdings or any of its equity holdings or other assets are sold, the Company will receive substantially all of the proceeds from the same, until such time, if ever, that all of the indebtedness is repaid. Accordingly, the Company characterizes this investment as an “Other Investment” rather than a “Debt Investment”.
- (16) The investment originally consisted of debt investments in Better Place Forests Co. (“Better Place”). On April 30, 2025, Better Place transferred ownership of all of its right, title and interest in and to all of its tangible and intangible assets to Better Place ABC, LLC, a California limited liability company (“BP ABC”) and BP ABC sold a portion of such assets to Memorial Forests Foundation in consideration for, among other things, the assumption of certain liabilities of BP ABC. The Company has a first priority security interest in the remaining assets of BP ABC, including certain rights to employee retention tax credits, so if any payments are received by BP ABC, the Company will receive a portion of the proceeds from the same, until such time, if ever, that all of the obligations of BP ABC to the Company are repaid. Accordingly, the Company characterizes this investment as an “Other Investment” rather than a “Debt Investment”.
- (17) On August 6, 2025, the Company purchased a portfolio of debt and related investments of Powerscourt XXV LP, a fund managed by Waterfall Asset Management (“WAM”), for a purchase price of \$22.5 million, which assets at the purchase date had a fair value of \$36.5 million and included debt investments on accrual status with a principal balance of \$34.9 million. WAM and the Advisor (as defined in Note 1) had previously entered into Master Program Agreement in March 2023 whereby the Advisor offered WAM the opportunity to participate, as a co-lender with the Company, in debt investments originated by the Advisor. WAM retained all investment decisions. In 2023, WAM ceased making new investments under the program, as it no longer wished to pursue a venture debt strategy.

**Horizon Technology Finance Corporation and Subsidiaries****Consolidated Schedule of Investments****December 31, 2025****(Dollars in thousands)**

- (1) All investments of the Company are in entities which are organized under the laws of the United States and have a principal place of business in the United States, unless otherwise noted.
- (2) Has been pledged as collateral under the Key Facility, the NYL Facility and/or the Nuveen Facility.
- (3) All non-affiliate investments are investments in which the Company owns less than 5% of the voting securities of the portfolio company. All non-controlled affiliate investments are investments in which the Company owns 5% or more of the voting securities of the portfolio company but not more than 25% of the voting securities of the portfolio company. All controlled affiliate investments are investments in which the Company owns more than 25% of the portfolio company's outstanding voting securities or has the power to exercise control over management or policies of such portfolio company (including through a management agreement).
- (4) All interest is payable in cash due monthly in arrears, unless otherwise indicated, and applies only to the Company's debt investments. Interest rate is the annual interest rate on the debt investment and does not include end-of-term payments ("ETPs"), and any additional fees related to the investments, such as deferred interest, commitment fees or prepayment fees. Debt investments are at variable rates for the term of the debt investment, unless otherwise indicated. For each debt investment, the current interest rate in effect as of December 31, 2025 is provided.
- (5) Portfolio company is a public company.
- (6) For debt investments, represents principal balance less unearned income.
- (7) Warrants, Equity and Other Investments are non-income producing.
- (8) Value as a percent of net assets.
- (9) As of December 31, 2025, 0.0% of the Company's total assets on a cost and fair value basis are in non-qualifying assets under Section 55(a) of the 1940 Act. Under the 1940 Act, the Company may not acquire any non-qualifying assets unless, at the time the acquisition is made, qualifying assets represent at least 70% of the Company's total assets.
- (10) ETPs are contractual fixed-interest payments due in cash at the maturity date of the applicable debt investment, including upon any prepayment, and are a fixed percentage of the original principal balance of the debt investments unless otherwise noted. Interest will accrue during the life of the debt investment on each ETP and will be recognized as non-cash income until it is actually paid. Therefore, a portion of the incentive fee the Company may pay its Advisor will be based on income that the Company has not yet received in cash.
- (11) Debt investment has a PIK feature in which the accrued interest is added to the then-outstanding principal amount of the debt investment.
- (12) The fair value of the investment was valued using significant unobservable inputs.
- (13) Debt investment is on non-accrual status as of December 31, 2025.
- (14) Debt investment is on non-accrual status as of December 31, 2025 and interest payments will be recognized as income on a cash basis.
- (15) The investment originally consisted of debt investments in Evelo. Evelo was a clinical stage life science company that was unable to raise additional capital to continue as a going concern and, through a series of transactions, Evelo became a subsidiary of Evelo Holdings and Evelo Holdings assumed the indebtedness of Evelo to the Company. Evelo Holdings is not an operating company but holds certain contractual rights to contingent payments and owns equity in Evelo, as well as certain assets it seeks to sell. The Company has a first priority security interest in the assets of Evelo Holdings, so if any payments are received by Evelo Holdings or any of its equity holdings or other assets are sold, the Company will receive substantially all of the proceeds from the same, until such time, if ever, that all of the indebtedness is repaid. Accordingly, the Company characterizes this investment as an "Other Investment" rather than a "Debt Investment".
- (16) The investment originally consisted of debt investments in Better Place. On April 30, 2025, Better Place transferred ownership of all of its right, title and interest in and to all of its tangible and intangible assets to BP ABC and BP ABC sold a portion of such assets to Memorial Forests Foundation in consideration for, among other things, the assumption of certain liabilities of BP ABC. The Company has a first priority security interest in the remaining assets of BP ABC, including certain rights to employee retention tax credits, so if any payments are received by BP ABC, the Company will receive a portion of the proceeds from the same, until such time, if ever, that all of the obligations of BP ABC to the Company are repaid. Accordingly, the Company characterizes this investment as an "Other Investment" rather than a "Debt Investment".
- (17) On August 6, 2025, the Company purchased this investment as a part of a portfolio of debt and related investments of Powerscourt XXV LP, a fund managed by WAM, for a purchase price of \$22.5 million, which assets at the purchase date had a fair value of \$36.5 million and included debt investments on accrual status with a principal balance of \$34.9 million. WAM and the Advisor (as defined in Note 1) had previously entered into Master Program Agreement in March 2023 whereby the Advisor offered WAM the opportunity to participate, as a co-lender with the Company, in debt investments originated by the Advisor. WAM retained all investment decisions. In 2023, WAM ceased making new investments under the program, as it no longer wished to pursue a venture debt strategy.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

**Note 1. Organization**

Horizon Technology Finance Corporation (the “Company”) was organized as a Delaware corporation on March 16, 2010 and is an externally managed, non-diversified, closed-end investment company. The Company has elected to be regulated as a business development company (“BDC”) under the 1940 Act. In addition, for tax purposes, the Company has elected to be treated as a regulated investment company (“RIC”) as defined under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”). As a RIC, the Company generally is not subject to corporate-level federal income tax on the portion of its taxable income (including net capital gains) the Company distributes to its stockholders. The Company primarily makes secured debt investments to development-stage companies in the technology, life science, healthcare information and services and sustainability industries. All of the Company’s debt investments consist of loans secured by all of, or a portion of, the applicable debtor company’s tangible and intangible assets.

On October 28, 2010, the Company completed an initial public offering (“IPO”) and its common stock trades on the Nasdaq Global Select Market under the symbol “HRZN”.

On April 14, 2026, the Company completed its previously announced merger with Monroe Capital Corporation (“MRCC”), HMMS, Inc. (“Merger Sub”), Monroe Capital BDC Advisors, LLC, and the Advisor, pursuant to the Agreement and Plan of Merger, dated as of August 7, 2025 (the “Merger Agreement”). Pursuant to the Merger Agreement, immediately following the Asset Sale (as defined below) and at the effective time of the Merger (the “Effective Time”), Merger Sub merged with and into MRCC, with MRCC continuing as the surviving company and as a wholly owned subsidiary of the Company, and, immediately thereafter, MRCC merged into the Company, with the Company continuing as the surviving company (collectively, the “Mergers”). MRCC also entered into an Asset Purchase Agreement (the “Asset Purchase Agreement”) with Monroe Capital Income Plus Corporation (“MCIP”), and MC Advisors, pursuant to which, MCIP acquired all of MRCC’s investment assets and liabilities at fair value, for cash (the “Asset Sale” and together with the Merger, the “Transactions”).

Horizon Credit II LLC (“Credit II”) was formed as a Delaware limited liability company on June 28, 2011, with the Company as its sole equity member. Credit II is a special purpose bankruptcy-remote entity and is a separate legal entity from the Company. Any assets conveyed to Credit II are not available to creditors of the Company or any other entity other than Credit II’s lenders. Credit II is consolidated in the financial statements of the Company.

Horizon Funding I, LLC (“HFI”) was formed as a Delaware limited liability company on May 9, 2018, with Horizon Secured Loan Fund I LLC, a Delaware limited liability company (“HSLFI”) as its sole member. HFI is a special purpose bankruptcy-remote entity and is a separate legal entity from HSLFI. Any assets conveyed to HFI are not available to creditors of HSLFI or any other entity other than HFI’s lenders. As of April 21, 2020, HSLFI and its subsidiary, HFI, are consolidated in the financial statements of the Company.

Horizon Funding II, LLC (“HFII”) was formed as a Delaware limited liability company on May 13, 2024, with the Company as its sole equity member. HFII is a special purpose bankruptcy-remote entity and is a separate legal entity from the Company. Any assets conveyed to HFII are not available to creditors of the Company or any other entity other than HFII’s lenders. HFII is consolidated in the financial statements of the Company.

The Company has established wholly owned subsidiaries, which are structured as Delaware limited liability companies, either to hold assets of portfolio companies acquired in connection with a foreclosure or bankruptcy or to hold equity in portfolio companies which the Company may control. Such wholly-owned subsidiaries are separate legal entities from the Company and are consolidated in the financial statements of the Company.

The Company, together with a former co-lender to IMV, established HIMV LLC, a Delaware limited liability company to purchase and sell the assets of IMV, a past borrower of the Company. The assets of IMV were sold for (i) the right to receive certain payments, if any, in connection with the potential future development and licensing of the assets sold and (ii) equity in the buyer of such assets. HIMV LLC was 70% owned by the Company and 30% owned by a third-party co-lender. On August 6, 2025, the Company purchased its co-lender’s interest in HIMV LLC. As of August 6, 2025, the Company owns 100% of HIMV LLC and HIMV LLC is consolidated in the financial statements of the Company. The Company dissolved HIMV LLC on January 27, 2026.

The Company’s investment strategy is to maximize the investment portfolio’s return by generating current income from the debt investments the Company makes and capital appreciation from the warrants the Company receives when making such debt investments. The Company has entered into an investment management agreement (the “Investment Management Agreement”) with the Advisor under which the Advisor manages the day-to-day operations of, and provides investment advisory services to, the Company.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

**Note 2. Basis of presentation and significant accounting policies**

The consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and pursuant to the requirements for reporting on Form 10-Q and Articles 6 and 10 of Regulation S-X (“Regulation S-X”) under the Securities Act of 1933, as amended (the “Securities Act”). In the opinion of management, the consolidated financial statements reflect all adjustments and reclassifications, consisting solely of normal recurring accruals, that are necessary for the fair presentation of financial results as of and for the periods presented. All intercompany balances and transactions have been eliminated. The current period’s results of operations are not necessarily indicative of results that ultimately may be achieved for the year. Therefore, the unaudited financial statements and notes should be read in conjunction with the audited financial statements and notes thereto as of and for the year ended December 31, 2025.

***Principles of consolidation***

As required under GAAP and Regulation S-X, the Company will generally consolidate its investment in a company that is an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. Accordingly, the Company consolidated the results of the Company’s wholly-owned subsidiaries in its consolidated financial statements.

Assets related to transactions that do not meet Accounting Standards Codification (“ASC”) Topic 860, *Transfers and Servicing* requirements for accounting sale treatment are reflected in the Company’s Consolidated Statements of Assets and Liabilities as investments. Those assets are owned by special purpose entities that are consolidated in the Company’s consolidated financial statements. The creditors of the special purpose entities have received security interests in such assets, and such assets are not intended to be available to the creditors of the Company (or any affiliate of the Company).

***Use of estimates***

In preparing the consolidated financial statements in accordance with GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities, as of the date of the balance sheet and income and expenses for the period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the valuation of investments.

***Fair value***

The Company records all of its investments at fair value in accordance with relevant GAAP, which establishes a framework used to measure fair value and requires disclosures for fair value measurements. The Company has categorized its investments carried at fair value, based on the priority of the valuation technique, into a three-level fair value hierarchy as more fully described in Note 6. Fair value is a market-based measure considered from the perspective of the market participant who holds the financial instrument rather than an entity specific measure. Therefore, when market assumptions are not readily available, the Company’s own assumptions are set to reflect those that management believes market participants would use in pricing the financial instrument at the measurement date.

The availability of observable inputs can vary depending on the financial instrument and is affected by a wide variety of factors, including, for example, the type of product, whether the product is new, whether the product is traded on an active exchange or in the secondary market and the current market conditions. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for financial instruments classified as Level 3.

See Note 6 for additional information regarding fair value.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

### ***Segments***

The Company has determined that it has a single reporting segment and operating unit structure. The Company lends to and invests in portfolio companies in various technology, life science, healthcare information and services and sustainability industries. The Company separately evaluates the performance of each of its lending and investment relationships. However, because each of these debt investments and investment relationships has similar business and economic characteristics, they have been aggregated into a single lending and investment segment.

The chief operating decision maker (“CODM”) is comprised of the Company’s Chief Executive Officer, Chief Financial Officer and Chief Investment Officer. The CODM assesses the performance of and makes operating decisions on behalf of the Company on a consolidated basis primarily based on the Company’s net increase (decrease) in net assets resulting from operations (“net income”). In addition to numerous other factors and metrics, the CODM utilizes net income as a key metric in recommending to the Company’s board of directors (the “Board”) the amount of dividends to be distributed to the Company’s stockholders and the Board makes the determination of the amount of dividends to be distributed to the Company’s stockholders. As the Company’s operations comprise a single reporting segment, the segment assets are reflected on the Company’s Consolidated Statements of Assets and Liabilities as “Total assets” and the significant segment expenses are listed on the Company’s Consolidated Statements of Operations.

### ***Investments***

Investments are recorded at fair value. Pursuant to the amended SEC Rule 2a-5 of the 1940 Act, on July 29, 2022, the Board designated the Advisor as the Company’s “valuation designee.” The valuation designee determines the fair value of the Company’s portfolio investments and the Company’s Board oversees the valuation designee. The Company has the intent to hold its debt investments for the foreseeable future or until maturity or payoff.

Interest on debt investments is accrued and included in income based on contractual rates applied to principal amounts outstanding. Interest income is determined using a method that results in a level rate of return on principal amounts outstanding. Generally, when a debt investment becomes 90 days or more past due, or if the Company otherwise does not expect to receive interest and principal repayments, the debt investment is placed on non-accrual status and the recognition of interest income may be discontinued. Interest payments received on non-accrual debt investments may be recognized as income, on a cash basis, or applied to principal depending upon management’s judgment at the time the debt investment is placed on non-accrual status. As of March 31, 2026, there were three investments on nonaccrual status with a cost of \$32.1 million and a fair value of \$24.3 million. As of December 31, 2025, there were three investments on non-accrual status with a cost of \$32.8 million and a fair value of \$24.5 million. For the three months ended March 31, 2026, the Company recognized \$0.1 million of interest income from debt investments while on non-accrual status. For the three months ended March 31, 2025, the Company did not recognize any interest income from debt investments while on non-accrual status.

From time to time, the Company may have debt investments that contain a PIK provision. Contractual PIK interest, which represents contractually deferred interest added to the loan balance that is generally due at the end of the loan term, is generally recorded on an accrual basis to the extent such amounts are expected to be collected. As of March 31, 2026 and December 31, 2025, there were six investments with PIK provisions. For the three months ended March 31, 2026 and 2025, PIK interest income totaled \$1.3 million and \$0.3 million, respectively. For the three months ended March 31, 2026 and 2025, 5.3% and 1.2%, respectively, of the Company’s total investment income was attributable to non-cash PIK interest. The Company will generally cease accruing PIK interest if management does not expect the portfolio company to be able to pay all principal and interest due. For the three months ended March 31, 2026, there were no debt investments which had accrued PIK interest into income during the three months ended March 31, 2026 placed on nonaccrual status as of March 31, 2026. For the three months ended March 31, 2025, one debt investment, which had accrued PIK interest into income of \$0.2 million during the three months ended March 31, 2025 was placed on nonaccrual status as of March 31, 2025.

The Company receives a variety of fees from borrowers in the ordinary course of conducting its business, including advisory fees, commitment fees, amendment fees, non-utilization fees, success fees and prepayment fees. In a limited number of cases, the Company may also receive a non-refundable deposit earned upon the termination of a transaction. Debt investment origination fees, net of certain direct origination costs, are deferred and, along with unearned income, are amortized as a level-yield adjustment over the respective term of the debt investment. All other income is recognized when earned. Fees for counterparty debt investment commitments with multiple debt investments are allocated to each debt investment based upon each debt investment’s relative fair value. When a debt investment is placed on non-accrual status, the amortization of the related fees and unearned income is discontinued until the debt investment is returned to accrual status.

Certain debt investment agreements also require the borrower to make an ETP, that is accrued into interest receivable and taken into income over the life of the debt investment to the extent such amounts are expected to be collected. The Company will generally cease accruing the income if there is insufficient value to support the accrual or the Company does not expect the borrower to be able to pay the ETP when due. The proportion of the Company’s total investment income that resulted from the portion of ETPs not received in cash for the three months ended March 31, 2026 and 2025 was 6.0% and 4.6%, respectively.

In connection with substantially all lending arrangements, the Company receives warrants to purchase shares of stock from the borrower. The warrants are recorded as assets at estimated fair value on the grant date using the Black-Scholes valuation model. The warrants are considered loan fees and are recorded as unearned income on the grant date. The unearned income is recognized as interest income over the contractual life of the related debt investment in accordance with the Company’s income recognition policy. Subsequent to debt investment origination, the fair value of the warrants is determined using the Black-Scholes valuation model. Any adjustment to fair value is recorded through earnings as net unrealized appreciation or depreciation on investments. Gains and losses from the disposition of the warrants or stock acquired from the exercise of warrants are recognized as realized gains and losses on investments.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

Realized gains or losses on the sale of investments, or upon the determination that an investment balance, or portion thereof, is not recoverable, are calculated using the specific identification method. The Company measures realized gains or losses by calculating the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment. Net unrealized appreciation or depreciation reflects the change in the fair values of the Company's portfolio investments during the reporting period, including any reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized.

***Debt issuance costs***

Debt issuance costs are fees and other direct incremental costs incurred by the Company in obtaining debt financing from its lenders and issuing debt securities. The unamortized balance of debt issuance costs as of March 31, 2026 and December 31, 2025 was \$8.8 million and \$10.6 million, respectively. These amounts are capitalized and amortized and included in interest expense in the consolidated statements of operations over the life of the borrowings. The accumulated amortization balances as of March 31, 2026 and December 31, 2025 were \$7.6 million and \$8.9 million, respectively. The amortization expense for the three months ended March 31, 2026 and 2025 was \$0.6 million and \$0.7 million, respectively.

***Income taxes***

As a BDC, the Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. In order to qualify as a RIC and to avoid the imposition of corporate-level income tax on the portion of its taxable income distributed to stockholders, among other things, the Company is required to meet certain source of income and asset diversification requirements and to timely distribute dividends out of assets legally available for distribution to its stockholders of an amount generally at least equal to 90% of its investment company taxable income, as defined by the Code and determined without regard to any deduction for dividends paid, for each tax year. The Company, among other things, has made and intends to continue to make the requisite distributions to its stockholders, which generally relieves the Company from corporate-level U.S. federal income taxes. Accordingly, no provision for federal income tax has been recorded in the financial statements. Differences between taxable income and net increase in net assets resulting from operations either can be temporary, meaning they will reverse in the future, or permanent. In accordance with ASC Topic 946, *Financial Services—Investment Companies*, as amended, of the Financial Accounting Standards Board ("FASB"), permanent tax differences, such as non-deductible excise taxes paid, are reclassified from distributions in excess of net investment income and net realized loss on investments to paid-in-capital at the end of each fiscal year. These permanent book-to-tax differences are reclassified on the consolidated statements of changes in net assets to reflect their tax character but have no impact on total net assets.

Depending on the level of taxable income earned in a tax year, the Company may choose to carry forward taxable income in excess of current year distributions into the next tax year and incur a 4% U.S. federal excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three months ended March 31, 2026 and 2025, \$0.3 and \$0.4 million, respectively, was accrued for U.S. federal excise tax.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

The Company evaluates tax positions taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority in accordance with ASC Topic 740, *Income Taxes*, as modified by ASC Topic 946. Tax benefits of positions not deemed to meet the more-likely-than-not threshold, or uncertain tax positions, would be recorded as a tax expense in the current year. It is the Company's policy to recognize accrued interest and penalties related to uncertain tax benefits in income tax expense. The Company had no material uncertain tax positions at March 31, 2026 and December 31, 2025. The Company's income tax returns for the 2026, 2025, 2024 and 2023 tax years remain subject to examination by U.S. federal and state tax authorities.

### ***Distributions***

Prior to January 1, 2026, the Company recorded distributions to common stockholders on the date the distribution was declared by the Board. On and after January 1, 2026, the Company records distributions to common stockholders on the ex-dividend date for such distribution. The Board continually monitors and reassesses the amount of cash to be paid out as distributions relative to the net investment income generated by the Company and other metrics. Net realized capital gains, if any, may be distributed, although the Company may decide to retain such net realized gains for investment.

The Company has adopted a dividend reinvestment plan that provides for reinvestment of cash distributions on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, if the Board declares a cash distribution, then stockholders who have not "opted out" of the dividend reinvestment plan will have their cash distributions automatically reinvested in additional shares of the Company's common stock, rather than receiving the cash distribution. The Company may issue new shares or purchase shares in the open market to fulfill its obligations under the plan.

### ***Stockholders' Equity***

On September 22, 2023, the Company entered into an At-The-Market ("ATM") sales agreement (the "2023 Equity Distribution Agreement"), with Goldman Sachs & Co. LLC and B. Riley FBR, Inc. (each a "Sales Agent" and, collectively, the "Sales Agents"). The 2023 Equity Distribution Agreement provides that the Company may offer and sell its shares of its common stock from time to time through the Sales Agents up to \$150.0 million worth of its common stock, in amounts and at times to be determined by the Company. Sales of the Company's common stock, if any, may be made in negotiated transactions or transactions that are deemed to be "at-the-market," as defined in Rule 415 under the Securities Act, including sales made directly on the Nasdaq or similar securities exchange or sales made to or through a market maker other than on an exchange, at prices related to the prevailing market prices or at negotiated prices.

During the three months ended March 31, 2026, the Company did not sell shares of common stock under the 2023 Equity Distribution Agreement.

During the three months ended March 31, 2025, the Company sold 404,305 shares of common stock under the 2023 Equity Distribution Agreement. For the same period, the Company received total accumulated net proceeds of approximately \$3.6 million, including \$0.1 million of offering expenses, from these sales.

The Company generally uses net proceeds from these offerings to make investments, to pay down liabilities and for general corporate purposes. As of March 31, 2026, shares representing approximately \$64.3 million of its common stock remain available for issuance and sale under the 2023 Equity Distribution Agreement.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

***Stock Repurchase Program***

On May 1, 2026, the Board extended a previously authorized stock repurchase program which allows the Company to repurchase up to \$10.0 million of its common stock at prices below the Company's net asset value per share as reported in its most recent consolidated financial statements, provided such purchases, in the aggregate, do not exceed two percent (2%) of the shares outstanding at the time of purchase and such shares are purchased only when the such shares are trading below 90% of the Company's most recently disclosed net asset value per share. Under the repurchase program, the Company may, but is not obligated to, repurchase shares of its outstanding common stock in the open market or in privately negotiated transactions from time to time. Any repurchases by the Company intends to comply with the requirements of Rule 10b-18 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and any applicable requirements of the 1940 Act. Unless extended by the Board, the repurchase program will terminate on the earlier of June 30, 2027 or the repurchase of \$10.0 million of the Company's common stock. During the three months ended March 31, 2026 and 2025, the Company did not make any repurchases of its common stock under its stock repurchase program. From the date of the inception of the Company's stock repurchase program through March 31, 2026, the Company repurchased 167,465 shares of its common stock at an average price of \$11.22 on the open market at a total cost of \$1.9 million. From time to time, the Board assesses the size and effectiveness of the stock repurchase program and could elect to increase or decrease the size of the program in the future.

***Transfers of financial assets***

Assets related to transactions that do not meet the requirements under ASC Topic 860, *Transfers and Servicing* for sale treatment under GAAP are reflected in the Company's consolidated statements of assets and liabilities as investments. Those assets are owned by special purpose entities that are consolidated in the Company's financial statements. The creditors of the special purpose entities have received security interests in such assets and such assets are not intended to be available to the creditors of the Company (or any other affiliate of the Company).

Transfers of financial assets are accounted for as sales when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when (1) the assets have been isolated from the Company — put presumptively beyond the reach of the transferor and its creditors, even in bankruptcy or other receivership, (2) the transferee obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets and (3) the transferor does not maintain effective control over the transferred assets through either (a) an agreement that both entitles and obligates the transferor to repurchase or redeem the assets before maturity or (b) the ability to unilaterally cause the holder to return specific assets, other than through a cleanup call.

***Recently issued accounting pronouncement***

In November 2024, the FASB issued Accounting Standards Update ("ASU") No. 2024-03, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures* (Subtopic 220-40). ASU No. 2024-03 requires disaggregated disclosure of certain costs and expenses, including purchase of inventory, employee compensation, depreciation, amortization and depletion, within relevant income statement captions. ASU 2024-03 is effective for years beginning after December 15, 2026, and interim periods beginning after December 15, 2027. Early adoption and retrospective application are permitted. The Company is currently evaluating the impact ASU No. 2024-03.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

**Note 3. Related party transactions*****Investment Management Agreement***

At a meeting of the stockholders convened on May 25, 2023 and reconvened on June 28, 2023, the Company's stockholders, upon the recommendation of the Board, approved an investment management agreement with the Advisor, which became effective on June 30, 2023 (the "Original Investment Management Agreement"). The Original Investment Management Agreement was effective for two years from the date of approval and then was required to be annually reapproved by the Board for a one-year period. The Original Investment Management Agreement was considered and reapproved by the Company's Board, including a majority of the independent directors, on December 10, 2024 for a one-year period.

On March 31, 2025, the Company entered into a new investment management agreement with the Advisor (the "New Investment Management Agreement", collectively with the Original Investment Management Agreement, the "Investment Management Agreement") in connection with the closing of a transaction pursuant to which Momentum US Bidco LLC, an affiliate of Wendel SE, acquired 75% of the outstanding equity interests of Monroe Capital Intermediate Holdings, LLC, the indirect parent company of the Advisor, and certain other affiliates of Monroe Capital LLC (the "Transaction") (any such affiliate party to the Transaction, collectively, "Monroe"). The Transaction constituted a change of control in the Advisor and terminated the Original Investment Management Agreement. On December 10, 2024, the Company's Board, including a majority of the independent directors, approved, and recommended for approval by the Company's stockholders, the New Investment Management Agreement. The New Investment Management Agreement was approved, subject to the closing of the Transaction, by the Company's stockholders at a special meeting of stockholders held on February 21, 2025. The terms of the New Investment Management Agreement, including the fee structure and services to be provided, are the same as the terms of the Original Investment Management Agreement, except for the date and term. Under the terms of the Investment Management Agreement, the Advisor determines the composition of the Company's investment portfolio, the nature and timing of the changes to the investment portfolio and the manner of implementing such changes; identifies, evaluates and negotiates the structure of the investments the Company makes (including performing due diligence on the Company's prospective portfolio companies); and closes, monitors and administers the investments the Company makes, including the exercise of any voting or consent rights.

The Advisor's services under the Investment Management Agreement are not exclusive to the Company, and the Advisor is free to furnish similar services to other entities so long as its services to the Company are not impaired. The Advisor is a registered investment adviser with the SEC. The Advisor receives fees for providing services to the Company under the Investment Management Agreement, consisting of two components, a base management fee and an incentive fee.

The base management fee is calculated at an annual rate of 2.00% of the Company's gross assets (less cash and cash equivalents) including any assets acquired with the proceeds of leverage; provided, that, to the extent the Company's gross assets (less cash and cash equivalents) exceed \$250 million, the base management fee on the amount of such excess over \$250 million will be calculated at an annual rate of 1.60% of the Company's gross assets (less cash and cash equivalents) including any assets acquired with the proceeds of leverage. The base management fee is payable monthly in arrears and is prorated for any partial month.

The base management fee payable at March 31, 2026 and December 31, 2025 was \$1.0 million. The base management fee expense was \$3.1 million and \$3.2 million for the three months ended March 31, 2026 and 2025, respectively.

The incentive fee has two parts, as follows:

The first part, which is subject to the Incentive Fee Cap and Deferral Mechanism, as defined below, is calculated and payable quarterly in arrears based on the Company's Pre-Incentive Fee Net Investment Income for the immediately preceding calendar quarter. For this purpose, "Pre-Incentive Fee Net Investment Income" means interest income, dividend income and any other income (including any other fees (other than fees for providing managerial assistance), such as commitment, origination, structuring, diligence and consulting fees or other fees received from portfolio companies) accrued during the calendar quarter, minus expenses for the quarter (including the base management fee, expenses payable under the Administration Agreement (as defined below), and any interest expense and any dividends paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero coupon securities), accrued income the Company has not yet received in cash. The incentive fee with respect to the Pre-Incentive Fee Net Investment Income is 20.00% of the amount, if any, by which the Pre-Incentive Fee Net Investment Income for the immediately preceding calendar quarter exceeds a hurdle rate of 1.75% (which is 7.00% annualized) of the Company's net assets at the end of the immediately preceding calendar quarter, adjusted for any share issuances or repurchases during the relevant quarter, subject to a "catch-up" provision measured as of the end of each calendar quarter. Under this provision, in any calendar quarter, the Advisor receives no incentive fee until the Pre-Incentive Fee Net Investment Income equals the hurdle rate of 1.75%, but then receives, as a "catch-up," 100.00% of the Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than 2.1875% quarterly (which is 8.75% annualized). The effect of this "catch-up" provision is that, if Pre-Incentive Fee Net Investment Income exceeds 2.1875% in any calendar quarter, the Advisor will receive 20.00% of the Pre-Incentive Fee Net Investment Income as if the hurdle rate did not apply.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

Pre-Incentive Fee Net Investment Income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Because of the structure of the incentive fee, it is possible that the Company may pay an incentive fee in a quarter in which the Company incurs a loss. For example, if the Company receives Pre-Incentive Fee Net Investment Income in excess of the quarterly minimum hurdle rate, the Company will pay the applicable incentive fee up to the Incentive Fee Cap, defined below, even if the Company has incurred a loss in that quarter due to realized and unrealized capital losses. The Company's net investment income used to calculate this part of the incentive fee is also included in the amount of the Company's gross assets used to calculate the 2.00% base management fee. These calculations are appropriately prorated for any period of less than three months and adjusted for any share issuances or repurchases during the current quarter.

The incentive fee on Pre-Incentive Fee Net Investment Income is subject to a fee cap and deferral mechanism which is determined based upon a look-back period of up to three years and is expensed when incurred. For this purpose, the look-back period for the incentive fee based on Pre-Incentive Fee Net Investment Income (the "Incentive Fee Look-back Period") includes the relevant calendar quarter and the 11 preceding full calendar quarters. Each quarterly incentive fee payable on Pre-Incentive Fee Net Investment Income is subject to a cap (the "Incentive Fee Cap") and a deferral mechanism through which the Advisor may recoup a portion of such deferred incentive fees (collectively, the "Incentive Fee Cap and Deferral Mechanism"). The Incentive Fee Cap is equal to (a) 20.00% of Cumulative Pre-Incentive Fee Net Return (as defined below) during the Incentive Fee Look-back Period less (b) cumulative incentive fees of any kind paid to the Advisor during the Incentive Fee Look-back Period. To the extent the Incentive Fee Cap is zero or a negative value in any calendar quarter, the Company will not pay an incentive fee on Pre-Incentive Fee Net Investment Income to the Advisor in that quarter. To the extent that the payment of incentive fees on Pre-Incentive Fee Net Investment Income is limited by the Incentive Fee Cap, the payment of such fees will be deferred and paid in subsequent calendar quarters up to three years after their date of deferral, subject to certain limitations, which are set forth in the Investment Management Agreement. The Company only pays incentive fees on Pre-Incentive Fee Net Investment Income to the extent allowed by the Incentive Fee Cap and Deferral Mechanism. "Cumulative Pre-Incentive Fee Net Return" during any Incentive Fee Look-back Period means the sum of (a) Pre-Incentive Fee Net Investment Income and the base management fee for each calendar quarter during the Incentive Fee Look-back Period and (b) the sum of cumulative realized capital gains and losses, cumulative unrealized capital appreciation and cumulative unrealized capital depreciation during the applicable Incentive Fee Look-back Period.

The second part of the incentive fee is determined and payable in arrears as of the end of each calendar year (or, upon termination of the Investment Management Agreement, as of the termination date), and equals 20.00% of the Company's realized capital gains, if any, on a cumulative basis from the date of the election to be a BDC through the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis through the end of such year, less all previous amounts paid in respect of the capital gain incentive fee. However, in accordance with GAAP, the Company is required to include the aggregate unrealized capital appreciation on investments in the calculation and accrue a capital gain incentive fee on a quarterly basis, as if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the Investment Management Agreement.

The performance based incentive fee expense was \$1.8 million for the three months ended March 31, 2026. There was no performance based incentive fee expense for the three months ended March 31, 2025. The incentive fee on Pre-Incentive Fee Net Investment Income was subject to the Incentive Fee Cap and Deferral Mechanism for the three months ended March 31, 2026 and 2025, which resulted in \$0.4 million and \$2.1 million, respectively, of reduced expense and additional net investment income. This deferral represents a contingent future liability and is not accrued until the amount can be reasonably estimated and payment is probable. The remaining deferred amount may be paid up to three years after the date of deferral. The performance based incentive fee payable as of March 31, 2026 was \$1.8 million. There was no performance based incentive fee payable as of December 31, 2025. The entire incentive fee payable as of March 31, 2026 represented part one of the incentive fee.

The Company's Advisor agreed to waive the portion of its quarterly income incentive fee, if any, if and to the extent that, after payment of such portion, the Company's net investment income per share for such quarter would be less than the quarterly distribution per share declared in such quarter. The income incentive fee waiver was effective commencing with the quarter ending March 31, 2025 and terminated with the quarter ending December 31, 2025. During the three months ended March 31, 2025, no income incentive fee was earned.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

The following table provides the expiration dates of the Company's Incentive Fee Cap and Deferral Mechanism contingent future liability as of March 31, 2026:

Expiration	Total
	(In thousands)
June 30, 2026	3,120
September 30, 2026	3,471
December 31, 2026	3,002
March 31, 2027	2,285
June 30, 2027	2,582
September 30, 2027	2,368
December 31, 2027	2,085
March 31, 2028	2,144
June 30, 2028	2,290
September 30, 2028	2,799
December 31, 2028	1,650
March 31, 2029	382
<b>Total</b>	<b>\$ 28,178</b>

#### *Administration Agreement*

The Company entered into an administration agreement (the "Administration Agreement") with the Advisor to provide administrative services to the Company. For providing these services, facilities and personnel, the Company reimburses the Advisor for the Company's allocable portion of overhead and other expenses incurred by the Advisor in performing its obligations under the Administration Agreement, including rent, the fees and expenses associated with performing compliance functions and the Company's allocable portion of the costs of compensation and related expenses of the Company's Chief Financial Officer and Chief Compliance Officer and their respective staffs. The administrative fee expense was \$0.6 million and \$0.4 million for the three months ended March 31, 2026 and 2025, respectively. The administrative fee payable at March 31, 2026 and December 31, 2025 was \$0.6 million and \$0.3 million, respectively. The administrative fee payable is included in other accrued liabilities on the Company's Statement of Assets and Liabilities.

#### *Advisory Fee Waiver*

In connection with entry into the Merger Agreement with MRCC, HMMS, Inc., a Maryland corporation and wholly owned subsidiary of the Company, Monroe Capital BDC Advisors, LLC, an investment adviser to MRCC, and the Advisor, the Advisor has agreed to waive \$4.0 million of base management fees and/or incentive fees (the "Fee Waiver") due and payable to the Advisor pursuant to the terms of the Investment Management Agreement at the rate of \$1.0 million per quarter commencing with the Company's third fiscal quarter of 2026. The Fee Waiver will be in effect until the end of the Company's second fiscal quarter of 2027 and, for each applicable fiscal quarter, will not exceed the total amount of base management fees and incentive fees earned by the Advisor during such fiscal quarter.

#### *Exemptive Relief*

The Advisor may provide the Company with an opportunity to co-invest with other investment vehicles managed by the Advisor, Monroe and/or their affiliates. Under the 1940 Act, absent receipt of exemptive relief from the SEC, the Company and its affiliates are precluded from co-investing in negotiated investments with other funds and accounts sponsored or managed by the Advisor, Monroe and their affiliates. Since June 30, 2023, the Company and its Advisor have relied on exemptive relief from the SEC granted to certain affiliates of Monroe on October 15, 2014, as amended on January 10, 2023. The exemptive relief affords the Advisor greater flexibility to negotiate the terms of co-investments if the Board determines that it would be advantageous for the Company to co-invest with other accounts sponsored or managed by the Advisor, Monroe or their affiliates in a manner consistent with the Company's investment objectives, positions, policies, strategies and restrictions as well as regulatory requirements and other pertinent factors. On May 14, 2025 Monroe, et al. filed an application, and amendments to the application on August 6, 2025 and October 3, 2025, for a new exemptive relief order for co-investments for the Company, the Advisor, Monroe and its affiliates. On November 21, 2025, a notice of the filing of the application was issued (Investment Company Act Release No. 35799). On December 17, 2025, the SEC granted an order for such exemptive relief (File No. 812-15798). The Company is required to comply with all terms and conditions required therein.

#### **Note 4. Investments**

**RoHo Capital Opportunity LLC**

On March 18, 2026, the Company and CR Financial Holdings, Inc. ("CRFH") entered into a limited liability company agreement (the "LLC Agreement") to form a new joint venture, RoHo Capital Opportunity Fund LLC f/k/a HRZN CRFH LLC (the "Joint Venture"). The Joint Venture is intended to enhance the investment strategy of the Company by providing growth capital financing solutions to small and micro-cap public companies.

The Company has committed to invest up to \$87.5 million in the Joint Venture and CRFH has committed to invest up to \$12.5 million in the Joint Venture. Investments by each of the Company and CRFH in the Joint Venture will be made in the form of membership interests. All investments by the Joint Venture must be approved by the unanimous vote of the Joint Venture's investment committee, which is comprised of an equal number of representatives designated by each of the Company and CRFH. Further, all other decisions regarding the management of the Joint Venture require the approval of the majority of the Joint Venture's board of directors, which is comprised of an equal number of representatives from each of the Company and CRFH.

As of March 31, 2026, no commitments were funded into the Joint Venture and no investments were made by the Joint Venture.

**Note 5. Transactions with affiliated companies**

A non-controlled affiliated company is generally a portfolio company in which the Company owns 5% or more of such portfolio company's voting securities but not more than 25% of such portfolio company's voting securities.

Transactions related to investments in non-controlled affiliated companies for the three months ended March 31, 2026 were as follows:

Portfolio Company	Fair value at December 31, 2025	Three months ended March 31, 2026							Fair value at March 31, 2026	Interest income

**Notes to Consolidated Financial Statements**

**Note 6. Fair value**

Prior to July 30, 2022, the Board determined the fair value of the Company's investments. Pursuant to the amended SEC Rule 2a-5 of the 1940 Act, on July 29, 2022, the Board designated the Advisor as the Company's "valuation designee." The Board is responsible for oversight of the valuation designee. The valuation designee has established a Valuation Committee to determine in good faith the fair value of the Company's investments, based on input from the Advisor's management and personnel and independent valuation firms which are engaged at the direction of the Valuation Committee to assist in the valuation of certain portfolio investments lacking a readily available market quotation at least once during a trailing twelve-month period. The Valuation Committee determines fair values pursuant to a valuation policy approved by the Board and pursuant to a consistently applied valuation process. This valuation process is conducted at the end of each fiscal quarter, with at least 25% (based on fair value) of the Company's valuation of portfolio companies lacking readily available market quotations subject to review by an independent valuation firm.

The Company uses fair value measurements made by the valuation designee to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in certain instances, there are no quoted market prices for certain assets or liabilities. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the asset or liability.

Fair value measurements focus on exit prices in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. If there has been a significant decrease in the volume and level of activity for the asset or liability, a change in valuation technique or the use of multiple valuation techniques may be appropriate. In such instances, determining the price at which willing market participants would transact at the measurement date under current market conditions depends on the facts and circumstances and requires the use of significant judgment.

The Company's fair value measurements are classified into a fair value hierarchy in accordance with ASC Topic 820, *Fair Value Measurement*, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. The three categories within the hierarchy are as follows:

- Level 1** Quoted prices in active markets for identical assets and liabilities.
- Level 2** Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not active, and model-based valuation techniques for which all significant inputs are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may fluctuate from period to period. Additionally, the fair value of the Company's investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that the Company may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If the Company was required to liquidate a portfolio investment in a forced or liquidation sale, the Company could realize significantly less than the value at which the Company has recorded such portfolio investment.

*Cash:* The carrying amount is a reasonable estimate of fair value. These financial instruments are not recorded at fair value on a recurring basis and are categorized as Level 1 within the fair value hierarchy described above.

*Money market funds:* The carrying amounts are valued at their net asset value as of the close of business on the day of valuation. These financial instruments are recorded at fair value on a recurring basis and are categorized as Level 1 within the fair value hierarchy described above as these funds can be redeemed daily.

*Debt investments:* The fair value of debt investments is estimated by discounting the expected future cash flows using the period end rates at which similar debt investments would be made to borrowers with similar credit ratings and for the same remaining maturities. Significant increases (decreases) in this unobservable input would result in a significantly lower (higher) fair value measurement. These assets are recorded at fair value on a recurring basis and are categorized as Level 3 within the fair value hierarchy described above.

Under certain circumstances, the Company may use an alternative technique to value debt investments that better reflects its fair value such as the use of multiple probability weighted cash flow models when the expected future cash flows contain elements of variability.

*Warrant investments:* The Company values its warrants using the Black-Scholes valuation model incorporating the following material assumptions:

- Underlying asset value of the issuer is estimated based on information available, including any information regarding the most recent rounds of borrower funding. Significant increases (decreases) in this unobservable input would result in a significantly higher (lower) fair value measurement.
- Volatility, or the amount of uncertainty or risk about the size of the changes in the warrant price, is based on indices of publicly traded companies similar in nature to the underlying company issuing the warrant. A total of seven such indices are used. Significant increases (decreases) in this unobservable input would result in a significantly higher (lower) fair value measurement.
- The risk-free interest rates are derived from the U.S. Treasury yield curve. The risk-free interest rates are calculated based on a weighted average of the risk-free interest rates that correspond closest to the expected remaining life of the warrant.
- Other adjustments, including a marketability discount on private company warrants, are estimated based on management's judgment about the general industry environment.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

- Historical portfolio experience on cancellations and exercises of the Company's warrants are utilized as the basis for determining the estimated time to exit of the warrants in each financial reporting period. Warrants may be exercised in the event of acquisitions, mergers or initial public offerings, and cancelled due to events such as bankruptcies, restructuring activities or additional financings. These events cause the expected remaining life assumption to be shorter than the contractual term of the warrants. Significant increases (decreases) in this unobservable input would result in significantly higher (lower) fair value measurement.

Under certain circumstances the Company may use an alternative technique to value warrants that better reflects the warrants' fair value, such as an expected settlement of a warrant in the near term or a model that incorporates a put feature associated with the warrant. The fair value may be determined based on the expected proceeds to be received from such settlement or based on the net present value of the expected proceeds from the put option.

The fair value of the Company's warrants held in publicly traded companies is determined based on inputs that are readily available in public markets or can be derived from information available in public markets. Therefore, the Company has categorized these warrants as Level 2 within the fair value hierarchy described above. The fair value of the Company's warrants held in private companies is determined using both observable and unobservable inputs and represents management's best estimate of what market participants would use in pricing the warrants at the measurement date. Therefore, the Company has categorized these warrants as Level 3 within the fair value hierarchy described above. These assets are recorded at fair value on a recurring basis.

*Equity investments:* The fair value of an equity investment in a privately held company is initially the face value of the amount invested. The Company adjusts the fair value of equity investments in private companies upon the completion of a new third-party round of equity financing. The Company may make adjustments to fair value, absent a new equity financing event, based upon positive or negative changes in a portfolio company's financial or operational performance. Significant increases (decreases) in this unobservable input would result in a significantly higher (lower) fair value measurement. The Company has categorized these equity investments as Level 3 within the fair value hierarchy described above. The fair value of an equity investment in a publicly traded company is based upon the closing public share price on the date of measurement. Therefore, the Company has categorized these equity investments as Level 1 within the fair value hierarchy described above. These assets are recorded at fair value on a recurring basis.

*Other investments:* Other investments are valued based on the facts and circumstances of the underlying contractual agreement. The Company currently values these contractual agreements using a multiple probability weighted cash flow model as the contractual future cash flows contain elements of variability. Significant changes in the estimated cash flows and probability weightings would result in a significantly higher or lower fair value measurement. The Company has categorized these other investments as Level 3 within the fair value hierarchy described above. These other investments are recorded at fair value on a recurring basis.

Transfers between levels are recognized as of the date of the event or change in circumstances that caused the transfer, based on changes in the observability or significance of valuation inputs.

The following tables detail the assets that are carried at fair value and measured at fair value on a recurring basis as of March 31, 2026 and December 31, 2025 and indicate the fair value hierarchy of the valuation techniques utilized by the Company to determine the fair value:

	<b>March 31, 2026</b>			
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
	<b>(In thousands)</b>			
Debt investments	\$ —	\$ —	\$ 645,629	\$ 645,629
Warrant investments	—	1,691	14,994	16,685
Other investments	—	—	3,664	3,664
Equity investments	2,580	—	27,139	29,719
<b>Total investments</b>	<b>\$ 2,580</b>	<b>\$ 1,691</b>	<b>\$ 691,426</b>	<b>\$ 695,697</b>

  

	<b>December 31, 2025</b>			
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
	<b>(In thousands)</b>			
Debt investments	\$ —	\$ —	\$ 596,025	\$ 596,025
Warrant investments	—	1,916	14,732	16,648
Other investments	—	—	3,444	3,444
Equity investments	3,988	—	27,139	31,127
<b>Total investments</b>	<b>\$ 3,988</b>	<b>\$ 1,916</b>	<b>\$ 641,340</b>	<b>\$ 647,244</b>

The following tables provide a summary of quantitative information about the Company's Level 3 fair value measurements of the Company's investments as of March 31, 2026 and December 31, 2025. In addition to the techniques and inputs noted in the table below, according to the Company's valuation policy, the Company may also use other valuation techniques and methodologies when determining its fair value measurements.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

The following table is not intended to be all-inclusive, but rather provides information on the significant Level 3 inputs as they relate to the Company's fair value measurements as of March 31, 2026:

March 31, 2026					
Investment Type	Fair Value	Valuation Techniques/ Methodologies	Unobservable Input	Range	Weighted Average(1)
(Dollars in thousands, except per share data)					
Debt investments	\$ 589,452	Discounted Expected Future Cash Flows	Hypothetical Market Yield	11% – 20%	12%
	56,177	Multiple Probability Weighted Cash Flow Model	Probability Weighting	30% – 100%	55%
Warrant investments	14,994	Black-Scholes Valuation Model	Price Per Share	\$0.00 – \$807.91	\$ 13.00
			Average Industry Volatility	24%	24%
			Marketability Discount	0 – 20%	20%
			Estimated Time to Exit (in years)	1 to 5	3
Other investments	3,664	Multiple Probability Weighted Cash Flow Model	Discount Rate	20% – 100%	43%
			Probability Weighting	100%	100%
Equity investments	27,139	Last Equity Financing	Price Per Share	\$0.06 – \$1,000.00	\$ 186.54
	—	Scenario Model	Probability Weighting	100%	100%
<b>Total Level 3 investments</b>	<b>\$ 691,426</b>				

(1) Weighted average is calculated by multiplying (a) the unobservable input for each investment in the investment type by (b) (1) the fair value of the related investment in the investment type divided by (2) the total fair value of the investment type.

The following table is not intended to be all-inclusive, but rather provides information on the significant Level 3 inputs as they relate to the Company's fair value measurements as of December 31, 2025:

December 31, 2025					
Investment Type	Fair Value	Valuation Techniques/ Methodologies	Unobservable Input	Range	Weighted Average(1)
(Dollars in thousands, except per share data)					
Debt investments	\$ 558,294	Discounted Expected Future Cash Flows	Hypothetical Market Yield	11% – 20%	13%
	37,731	Multiple Probability Weighted Cash Flow Model	Probability Weighting	30% – 100%	56%
Warrant investments	14,732	Black-Scholes Valuation Model	Price Per Share	\$0.00 – \$807.91	\$ 13.72
			Average Industry Volatility	24%	24%
			Marketability Discount	0 – 20%	20%
			Estimated Time to Exit (in years)	1 to 5	3
Other investments	3,444	Multiple Probability Weighted Cash Flow Model	Discount Rate	20% – 100%	44%
			Probability Weighting	0% – 100%	100%
Equity investments	27,139	Last Equity Financing	Price Per Share	\$0.06 – \$1,000.00	\$ 186.54
	—	Scenario Model	Probability Weighting	100%	100%
<b>Total Level 3 investments</b>	<b>\$ 641,340</b>				

(1) Weighted average is calculated by multiplying (a) the unobservable input for each investment in the investment type by (b) (1) the fair value of the related investment in the investment type divided by (2) the total fair value of the investment type.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

*Borrowings:* The Credit Facilities approximate fair value due to the variable interest rate of the facilities and are categorized as Level 2 within the fair value hierarchy described above. Additionally, the Company considers its creditworthiness in determining the fair value of such borrowings. The fair value of the fixed-rate 2027 Notes (as defined in Note 7) is based on the closing public share price on the date of measurement. On March 31, 2026, the closing price of the 2027 Notes on the New York Stock Exchange was \$24.59 per note, and the 2027 Notes had an aggregate fair value of \$56.6 million. Therefore, the Company has categorized this borrowing as Level 1 within the fair value hierarchy described above. Based on market yields on March 31, 2026, the fair value of the 2028 Notes (as defined in Note 7) was \$57.2 million and are categorized as Level 3 within the fair value hierarchy described above. Based on market yields on March 31, 2026, the fair value of the 2031 Convertible Notes (as defined in Note 7) was \$2.7 million, and the 2031 Convertible Notes are categorized as Level 3 within the fair value hierarchy described above. Based on market yields on March 31, 2026, the fair value of the 2030 Convertible Notes (as defined in Note 7) was \$16.2 million, and the 2030 Convertible Notes are categorized as Level 3 within the fair value hierarchy described above. These borrowings are not recorded at fair value on a recurring basis.

*Off-balance-sheet instruments:* Fair values for off-balance-sheet lending commitments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standings. Therefore, the Company has categorized these instruments as Level 3 within the fair value hierarchy described above.

The following table shows a reconciliation of the beginning and ending balances for Level 3 assets measured at fair value on a recurring basis for the three months ended March 31, 2026:

	<b>Three months ended March 31, 2026</b>				
	<b>Debt Investments</b>	<b>Warrant Investments</b>	<b>Equity Investments</b>	<b>Other Investments</b>	<b>Total</b>
	(In thousands)				
Level 3 assets, beginning of period	\$ 596,025	\$ 14,732	\$ 27,139	\$ 3,444	\$ 641,340
Purchase of investments	90,004	—	—	—	90,004
Warrants received and classified as Level 3	—	371	—	—	371
Principal payments received on investments	(37,890)	—	—	(158)	(38,048)
PIK interest on investments	1,278	—	—	—	1,278
Proceeds from sale of investments	—	(1)	(19)	(84)	(104)
Net realized gain (loss) on investments	1	(265)	19	84	(161)
Unrealized (depreciation) appreciation included in earnings	(2,960)	157	—	378	(2,425)
Other	(829)	—	—	—	(829)
Level 3 assets, end of period	<u>\$ 645,629</u>	<u>\$ 14,994</u>	<u>\$ 27,139</u>	<u>\$ 3,664</u>	<u>\$ 691,426</u>

During the three months ended March 31, 2026, there were no transfers in or out of Level 3.

The change in unrealized depreciation included in the consolidated statement of operations attributable to Level 3 investments still held at March 31, 2026 includes \$2.6 million in unrealized depreciation on debt and other investments and \$0.1 million in unrealized depreciation on warrant investments.

The following table shows a reconciliation of the beginning and ending balances for Level 3 assets measured at fair value on a recurring basis for the three months ended March 31, 2025:

	<b>Three months ended March 31, 2025</b>				
	<b>Debt Investments</b>	<b>Warrant Investments</b>	<b>Equity Investments</b>	<b>Other Investments</b>	<b>Total</b>
	(In thousands)				
Level 3 assets, beginning of period	\$ 638,779	\$ 16,438	\$ 25,611	\$ 14,637	\$ 695,465
Purchase of investments	71,629	—	2,045	15	73,689
Warrants received and classified as Level 3	—	165	—	—	165

During the three months ended March 31, 2025, there were no transfers in or out of Level 3.

The change in unrealized depreciation included in the consolidated statement of operations attributable to Level 3 investments still held at March 31, 2025 includes \$17.8 million in unrealized depreciation on debt and other investments, \$14.7 million in unrealized depreciation on equity investments and \$0.6 million in unrealized appreciation on warrant investments.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

The Company discloses fair value information about financial instruments, whether or not recognized in the consolidated statement of assets and liabilities, for which it is practicable to estimate that value. Certain financial instruments are excluded from the disclosure requirements. Accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Company.

The fair value amounts have been measured as of the reporting date and have not been reevaluated or updated for purposes of these financial statements subsequent to that date. As such, the fair values of these financial instruments subsequent to the reporting date may be different than amounts reported.

As of March 31, 2026 and December 31, 2025, all of the balances of all the Company's financial instruments were recorded at fair value, except for the Company's borrowings, as previously described.

**Market risk**

The Company assumes interest rate risk (the risk that general interest rate levels will change) as a result of its normal operations. As a result, the fair values of the Company's financial instruments may change when interest rate levels change, and that change may be either favorable or unfavorable to the Company. Management attempts to match maturities of assets and liabilities to the extent believed necessary to minimize interest rate risk. Management monitors rates and maturities of assets and liabilities and attempts to minimize interest rate risk by adjusting terms of new debt investments and by investing in securities with terms that mitigate the Company's overall interest rate risk.

**Note 7. Borrowings**

The following table shows the Company's borrowings as of March 31, 2026 and December 31, 2025:

	March 31, 2026			December 31, 2025		
	Total Commitment	Balance Outstanding	Unused Commitment	Total Commitment	Balance Outstanding	Unused Commitment
	(In thousands)					
Key Facility	\$ 150,000	\$ 45,000	\$ 105,000	\$ 150,000	\$ —	\$ 150,000
NYL Facility	250,000	181,000	69,000	250,000	181,000	69,000

2031 Convertible Notes	2,750	2,750	—	2,750	2,750	—
Total before debt issuance costs	734,200	450,200	284,000	806,750	477,750	329,000
Unamortized debt issuance costs attributable to term borrowings	—	(3,034)	—	—	(4,723)	—
Total borrowings outstanding, net	\$ 734,200	\$ 447,166	\$ 284,000	\$ 806,750	\$ 473,027	\$ 329,000

As of March 31, 2026, with certain limited exceptions, the Company, as a BDC, was only allowed to borrow amounts such that the Company's asset coverage, as defined in the 1940 Act, was at least 150% after such borrowings. As of March 31, 2026, the asset coverage for borrowed amounts was 174%.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

### ***Credit Facilities***

#### ***Key Facility***

The Company entered into the Key Facility with Key effective November 4, 2013. On February 26, 2026, the Company amended the Key Facility, among other things, (i) to make Michael P. Balkin and Paul G. Seitz each an “Authorized Person”, (ii) to amend certain requirements to make a debt investment eligible for the borrowing base and (iii) to amend certain concentration limits. On June 20, 2024, the Company amended the Key Facility, among other things, (i) to extend the date on which the Company may request advances under the Key Facility to June 20, 2027 and to extend the maturity date to June 20, 2029 and (ii) to amend the interest rate to be based on the rate of interest published in The Wall Street Journal as the prime rate in the United States plus 0.10%, with an interest rate floor of 4.10%. Prior to June 20, 2024, the interest rate on the Key Facility was based on Prime plus 0.25%, with a prime rate floor of 4.25%. On June 29, 2023, the Company amended the Key Facility, among other things, to increase the commitment amount to \$150 million and to increase the amount of the accordion feature which now allows for the potential increase in the total commitment amount to \$300 million. The Key Facility is collateralized by all debt investments and warrants held by Credit II and permits an advance rate of up to 60% of eligible debt investments held by Credit II. The Key Facility contains covenants that, among other things, require the Company to maintain a minimum net worth and to restrict the debt investments securing the Key Facility to certain criteria for qualified debt investments and includes portfolio company concentration limits as defined in the related loan agreement. The prime rate was 6.75% on March 31, 2026 and December 31, 2025. The average interest rate on the Key Facility for the three months ended March 31, 2026 and 2025 was 6.85% and 7.60%, respectively. The Key Facility requires the payment of an unused line fee in an amount up to 0.75% on an annualized basis of any unborrowed amount available under the facility. As of March 31, 2026 and December 31, 2025, the Company had borrowing capacity under the Key Facility of \$105.0 and \$150.0 million, respectively. At March 31, 2026 and December 31, 2025, \$23.3 million and \$49.6 million, respectively, was available for borrowing, subject to existing terms and advance rates.

#### ***NYL Facility***

HFI entered into the NYL Facility with the NYL Noteholders for an aggregate purchase price of up to \$100.0 million, with an accordion feature of up to \$200.0 million at the mutual discretion and agreement of HSLFI and the NYL Noteholders. On June 1, 2018, HSLFI sold or contributed to HFI certain secured loans made to certain portfolio companies pursuant to the Sale and Servicing Agreement. Any notes issued by HFI are collateralized by all investments held by HFI and permit an advance rate of up to 67% of the aggregate principal amount of eligible debt investments. The notes were issued pursuant to the indenture. All advances under the NYL Facility are scheduled to mature in June 2030.

On May 24, 2023, the Company amended its NYL Facility to, among other things, increase the commitment by \$50.0 million to enable its wholly-owned subsidiary to issue up to \$250.0 million of secured notes. On April 25, 2025, the Company amended its NYL Facility to, among other things, extend the investment period to June 5, 2027. In addition, the amendment amended the interest rate for advances made after April 25, 2025, fixing the interest rate at the greater of (i) 4.60% and (ii) the Three Year I Curve plus 2.95% with the interest rate to be reset on any advance date.

There were \$181.0 million in advances made by the NYL Noteholders as of March 31, 2026 and December 31, 2025. The interest rate was 6.57% and 6.54% as of March 31, 2026 and 2025, respectively. As of March 31, 2026 and December 31, 2025, the Company had borrowing capacity under the NYL Facility of \$69.0 million. At March 31, 2026 and December 31, 2025, \$2.6 million and \$1.9 million, respectively, was available for borrowing, subject to existing terms and advance rates.

Under the terms of the NYL Facility, the Company is required to maintain a reserve cash balance, which may be used to pay monthly interest and principal payments on the NYL Facility. The Company has segregated these funds and classified them as restricted investments in money market funds. At March 31, 2026 and December 31, 2025, there were approximately \$1.4 million of such restricted investments.

#### ***Nuveen Facility***

HFII entered into the Nuveen Facility with the Nuveen Noteholders for an aggregate purchase price of up to \$100.0 million, with an accordion feature of up to \$200.0 million at the mutual discretion and agreement of HFII and the Nuveen Noteholders. On June 21, 2024, the Company sold or contributed to HFII certain secured loans made to certain portfolio companies pursuant to the Sale and Servicing Agreement. Any notes issued by HFII are collateralized by all investments held by HFII and permit an advance rate of up to 67.5% of the aggregate principal amount of eligible debt investments. The notes were issued pursuant to the Indenture. The Nuveen Facility bore interest, payable monthly, determined at a rate per annum equal to the greater of (i) the yield for the United States Treasury constant maturity 3-year and 5-year in the most recent statistical release published by the Board of Governors of the Federal Reserve System designated as “Selected Interest Rates (Daily) – H.15” interpolated to a 4.88-year weighted average life (the “Pricing Benchmark”) plus 3.15% and (ii) 5.00%.

On May 23, 2025, the Company amended its Nuveen Facility to, among other things, extend the investment period to June 21, 2028 and the maturity date to June 10, 2034, and increase the commitment by \$100.0 million which enables its wholly-owned subsidiary to issue up to \$200.0 million of secured notes. In addition, the amendment amended the interest rate for advances made after May 23, 2025, fixing the interest rate at the greater of (i) 5.00% and (ii) the Pricing Benchmark plus 2.95%.

There were \$90.0 million in advances made by the Nuveen Noteholders as of March 31, 2026 and December 31, 2025. The interest rate as of March 31, 2026 and 2025 was 7.21%. As of March 31, 2026 and December 31, 2025, the Company had borrowing capacity under the Nuveen Facility of \$110.0 million. At March 31, 2026 and December 31, 2025, \$22.3 million and \$12.1 million, respectively, was available for borrowing, subject to existing terms and advance rates.

Under the terms of the Nuveen Facility, the Company is required to maintain a reserve cash balance, which may be used to pay monthly interest and principal payments on the Nuveen Facility. The Company has segregated these funds and classified them as restricted investments in money market funds. At March 31, 2026 and December 31, 2025 there were approximately \$1.3 million and \$1.1 million, respectively, of such restricted investments.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

### *Unsecured Notes*

#### *2026 Notes*

On March 30, 2021, the Company issued and sold an aggregate principal amount of \$57.5 million of 4.875% notes due in 2026 (the “2026 Notes”). The amount of 2026 Notes issued and sold included the full exercise by the underwriters of their option to purchase \$7.5 million in aggregate principal of additional notes. The 2026 Notes had a stated maturity of March 30, 2026 and could have been redeemed in whole or in part at the Company’s option at any time or from time to time on or after March 30, 2023 at a redemption price of \$25 per security plus accrued and unpaid interest. The 2026 Notes bore interest at a rate of 4.875% per year, payable quarterly on March 30, June 30, September 30 and December 30 of each year. The 2026 Notes were the Company’s direct unsecured obligations and (i) ranked equally in right of payment with the Company’s current and future unsecured indebtedness; (ii) were senior in right of payment to any of the Company’s future indebtedness that expressly provides it is subordinated to the 2026 Notes; (iii) were effectively subordinated to all of the Company’s existing and future secured indebtedness (including indebtedness that is initially unsecured to which the Company subsequently grants security), to the extent of the value of the assets securing such indebtedness, and (iv) were structurally subordinated to all existing and future indebtedness and other obligations of any of the Company’s subsidiaries. The 2026 Notes were listed on the New York Stock Exchange under the symbol “HTFB”. On January 28, 2026, the Company redeemed all of the outstanding principal balance of the 2026 Notes plus accrued interest. The Company accelerated \$0.1 million of unamortized debt issuance costs related to the 2026 Notes.

#### *2027 Notes*

On June 15, 2022, the Company issued and sold an aggregate principal amount of \$50.0 million of 6.25% notes due in 2027 and on July 11, 2022, pursuant to the underwriters’ 30-day option to purchase additional notes, the Company sold an additional \$7.5 million of such notes (collectively, the “2027 Notes”). The 2027 Notes have a stated maturity of June 15, 2027 and may be redeemed in whole or in part at the Company’s option at any time or from time to time on or after June 15, 2024 at a redemption price of \$25 per security plus accrued and unpaid interest. The 2027 Notes bear interest at a rate of 6.25% per year, payable quarterly on March 30, June 30, September 30 and December 30 of each year, commencing on September 30, 2022. The 2027 Notes are the Company’s direct unsecured obligations and (i) rank equally in right of payment with the Company’s current and future unsecured indebtedness; (ii) are senior in right of payment to any of the Company’s future indebtedness that expressly provides it is subordinated to the 2027 Notes; (iii) are effectively subordinated to all of the Company’s existing and future secured indebtedness (including indebtedness that is initially unsecured to which the Company subsequently grants security), to the extent of the value of the assets securing such indebtedness, and (iv) are structurally subordinated to all existing and future indebtedness and other obligations of any of the Company’s subsidiaries. As of March 31, 2026, the Company was in material compliance with the terms of the 2027 Notes. The 2027 Notes are listed on the New York Stock Exchange under the symbol “HTFC”.

#### *2028 Notes*

On December 15, 2025, the Company issued and sold an aggregate principal amount of \$57.5 million of 7.00% notes due in 2028 (the “2028 Notes”) in a private transaction. The 2028 Notes have a stated maturity of December 15, 2028 and may be redeemed in whole or in part at the Company’s option at any time or from time to time on or prior to June 15, 2028, at a redemption price equal to the greater of: (1)(a) the sum of the present values of the remaining scheduled payments of principal and interest thereon discounted to the redemption date on a semi-annual basis at the Treasury Rate plus 50 basis points less (b) interest accrued to the date of redemption, and (2) 100% of the principal amount of the 2028 Notes to be redeemed, plus, in either case, accrued and unpaid interest thereon to, but not including, the redemption date. On or after June 15, 2028, the Company may redeem the 2028 Notes, in whole or in part, at any time and from time to time, at a redemption price equal to 100% of the principal amount of the 2028 Notes being redeemed plus accrued and unpaid interest there onto the date of redemption. The 2028 Notes bear interest at a rate of 7.00% per year, payable semi-annually on June 15 and December 15 of each year, commencing on June 15, 2026. The 2028 Notes are the Company’s direct unsecured obligations and (i) rank equally in right of payment with the Company’s current and future unsecured indebtedness; (ii) are senior in right of payment to any of the Company’s future indebtedness that expressly provides it is subordinated to the 2028 Notes; (iii) are effectively subordinated to all of the Company’s existing and future secured indebtedness (including indebtedness that is initially unsecured to which the Company subsequently grants security), to the extent of the value of the assets securing such indebtedness, and (iv) are structurally subordinated to all existing and future indebtedness and other obligations of any of the Company’s subsidiaries. As of March 31, 2026, the Company was in material compliance with the terms of the 2028 Notes.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

### ***Convertible Notes***

#### ***2030 Convertible Notes***

On September 4, 2025, the Company entered into a note purchase agreement (the “2030 Note Purchase Agreement”), by and among the Company and each purchaser named therein, in connection with the issuance and sale of \$40.0 million aggregate principal of the Company’s 5.50% convertible notes due 2030 (the “2030 Convertible Notes”) in a transaction exempt from registration pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended. The Company received net proceeds (before expenses) from the sale of the 2030 Convertible Notes of approximately \$36.6 million.

The 2030 Convertible Notes mature on September 4, 2030, unless earlier converted or repurchased in accordance with their terms. The 2030 Convertible Notes bear interest at a rate of 5.50% per year, payable monthly in arrears on the last day of each calendar month, beginning on September 30, 2025.

The 2030 Convertible Notes are direct unsecured obligations of the Company and rank (i) equal in right of payment to the Company’s existing and future unsecured indebtedness that is not subordinated in right of payment to the 2030 Convertible Notes; (ii) senior in right of payment to the Company’s future indebtedness that is expressly subordinated in right of payment to the 2030 Convertible Notes; (iii) effectively junior in right of payment to the Company’s existing and future secured indebtedness (including unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and (iv) structurally junior to all existing and future indebtedness and other obligations of any of the Company’s subsidiaries. No sinking fund is provided for the 2030 Convertible Notes.

At any time on or after October 4, 2025, at the Company’s sole option, the Company may redeem, from time to time, the 2030 Convertible Notes in whole or in part, out of funds legally available for such redemption, at 100% of the principal amount prepaid plus accrued but unpaid interest to but excluding the date of prepayment.

Each holder of a 2030 Convertible Note has the right, at such holder’s option, to convert any such 2030 Convertible Note, at any time on or after October 4, 2025 and prior to the close of business on the business day immediately preceding the maturity date, once or more times per calendar month, into such number of shares of common stock of the Company equal to the principal balance of the 2030 Convertible Note being converted on the conversion date plus the accrued but unpaid interest on the 2030 Convertible Note as of the conversion date, divided by the greater of (i) volume-weighted average closing sale price for the five trading days immediately prior to the relevant conversion date, or (ii) the Company’s most recently reported net asset value (“NAV”) per share immediately prior to the date of the notice of such exercise. If the 2030 Convertible Notes were converted as of March 31, 2026, 2,356,734 shares would have been issued based on the Company’s most recently reported NAV per share immediately prior to March 31, 2026 of \$6.98. The last reported price for the Company’s common stock on March 31, 2026 was \$4.21 per share.

No holder of 2030 Convertible Notes may exercise its conversion right if upon conversion the holder would receive shares that would cause funds and accounts managed by the investment adviser to such funds and accounts and any person controlled by the parent company of such investment adviser to beneficially own in the aggregate more than 4.99% of the shares outstanding at such time.

The 2030 Convertible Notes are not listed on any exchange and may not be transferred without the consent of the Company.

The 2030 Convertible Notes are recorded at their contractual amounts. At issuance, the Company determined that the embedded conversion option in the 2030 Convertible Notes is not required to be separately accounted for as a derivative under ASC 815, *Derivatives and Hedging*.

During the three months ended March 31, 2026, the holders of a portion of the 2030 Convertible Notes converted \$15.1 million in outstanding principal of the 2030 Convertible Notes plus accrued but unpaid interest on such outstanding principal as of the conversion date into 2,118,250 shares of common stock at a weighted average conversion price of \$7.12 together with cash in lieu of fractional shares, in accordance with noteholder conversion notice. The Company accelerated \$1.3 million of unamortized debt issuance costs related to the 2030 Convertible Notes during the three months ended March 31, 2026.

As of March 31, 2026 and December 31, 2025, the aggregate outstanding principal balance of the 2030 Convertible Notes was \$16.5 million and \$31.5 million, respectively

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

### *2031 Convertible Notes*

On October 17, 2024, the Company entered into a note purchase agreement (the “2031 Note Purchase Agreement”, by and among the Company, and each purchaser named therein, in connection with the issuance and sale of \$20.0 million aggregate principal of the Company’s 7.125% convertible notes due 2031 (the “2031 Convertible Notes” and collectively with the 2030 Convertible Notes, the “Convertible Notes”), in a transaction exempt from registration pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended. The Company received net proceeds (before expenses) from the sale of the 2031 Convertible Notes of approximately \$18.6 million.

The 2031 Convertible Notes mature on October 17, 2031, unless earlier converted or repurchased in accordance with their terms. The 2031 Convertible Notes bear interest at a rate of 7.125% per year, subject to additional interest or repurchase obligation upon certain events, payable quarterly in arrears on March 31, June 30, September 30 and December 31 of each year, beginning on December 31, 2024. If an investment grade rating is not maintained with respect to the 2031 Convertible Notes, additional interest of 1.00% per annum will accrue on the 2031 Convertible Notes until such time as the 2031 Convertible Notes have received an investment grade rating of “BBB-” (or its equivalent) or better. The Company will also be required to pay additional interest of 2.00% per annum (x) on any overdue payment of interest and (y) during the continuance of an Event of Default (as defined in the 2031 Note Purchase Agreement). In addition, on the occurrence of a Change in Control Repurchase Event (as defined in the 2031 Note Purchase Agreement) or Delisting Event (as defined in the 2031 Note Purchase Agreement), the Company will generally be required to make an offer to purchase the outstanding 2031 Convertible Notes at a price equal to 100% of the principal amount of such 2031 Convertible Notes plus accrued and unpaid interest to the repurchase date.

The 2031 Convertible Notes are direct unsecured obligations of the Company and rank (i) equal in right of payment to the Company’s existing and future unsecured indebtedness that is not subordinated in right of payment to the 2031 Convertible Notes; (ii) senior in right of payment to the Company’s future indebtedness that is expressly subordinated in right of payment to the 2031 Convertible Notes; (iii) effectively junior in right of payment to the Company’s existing and future secured indebtedness (including unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness; and (iv) structurally junior to all existing and future indebtedness and other obligations of any of the Company’s subsidiaries. No sinking fund is provided for the 2031 Convertible Notes.

At any time on or after April 17, 2025, at the Company’s sole option, the Company may redeem, from time to time, the 2031 Convertible Notes in whole or in part, out of funds legally available for such redemption, at 100% of the principal amount prepaid plus accrued but unpaid interest to but excluding the date of prepayment.

Each holder of a 2031 Convertible Note has the right, at such holder’s option, to convert any such 2031 Convertible Note, at any time on or after April 17, 2025 and prior to the close of business on the business day immediately preceding the maturity date, into such number of shares of common stock of the Company equal to the principal balance of the 2031 Convertible Note being converted on the conversion date plus the accrued but unpaid interest on the 2031 Convertible Note as of the conversion date, divided by the greater of (i) volume-weighted average closing sale price for the five trading days immediately prior to the relevant conversion date, or (ii) the Company’s most recently reported NAV per Share immediately prior to the date of exercise. If the 2031 Convertible Notes were converted as of March 31, 2026, 393,983 shares would have been issued based on the Company’s most recently reported NAV per share immediately prior to March 31, 2026 of \$6.98. The last reported price for the Company’s common stock on March 31, 2026 was \$4.21 per share.

No holder of 2031 Convertible Notes may exercise its conversion right if upon conversion the holder would receive shares that would cause funds and accounts managed by the investment adviser to such funds and accounts and any person controlled by the parent company of such investment adviser to beneficially own in the aggregate more than 4.99% of the shares outstanding at such time.

The 2031 Convertible Notes are not listed on any exchange and may not be transferred without the consent of the Company.

The 2031 Convertible Notes are recorded at their contractual amounts. At issuance, the Company determined that the embedded conversion option in the 2031 Convertible Notes is not required to be separately accounted for as a derivative under ASC 815, *Derivatives and Hedging*.

During the three months ended March 31, 2026 and 2025, the holders of the 2031 Convertible Notes did not convert any of the 2031 Convertible Notes.

As of March 31, 2026 and December 31, 2025, the aggregate outstanding principal balance of the 2031 Convertible Notes was \$2.8 million.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

**Note 8. Financial instruments with off-balance-sheet risk**

In the normal course of business, the Company is party to financial instruments with off-balance-sheet risk to meet the financing needs of its borrowers. These financial instruments include commitments to extend credit and involve, to varying degrees, elements of credit risk in excess of the amount recognized in the consolidated statement of assets and liabilities. The Company attempts to limit its credit risk by conducting extensive due diligence and obtaining collateral where appropriate.

The balance of unfunded commitments to extend credit was \$155.0 million and \$104.0 million as of March 31, 2026 and December 31, 2025, respectively. Commitments to extend credit consist principally of the unused portions of commitments that obligate the Company to extend credit, often subject to financial or non-financial milestones and other conditions to borrow that must be achieved before the commitment can be drawn. In addition, the commitments generally have fixed expiration dates or other termination clauses. Since commitments may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements.

The following table provides the Company's unfunded commitments by portfolio company as of March 31, 2026 and December 31, 2025:

	March 31, 2026		December 31, 2025	
	Commitment Amount	Fair Value of Unfunded Commitment Liability	Commitment Amount	Fair Value of Unfunded Commitment Liability
	(In thousands)		(In thousands)	
Avive Solutions, Inc.	\$ 10,000	\$ —	\$ —	\$ —
Britecore Holdings, Inc.	5,000	50	5,000	50
Ceribell, Inc.	21,000	120	21,000	120
Crafty Holdings, Inc.	1,500	19	3,000	39
GT Medical Technologies, Inc.	10,000	50	20,000	100
Hyperfine, Inc.	25,000	298	—	—
Infobionic, Inc.	5,000	50	5,000	50
Long Grove Pharmaceuticals LLC	10,000	75	10,000	75
MasteryPrep, LLC	5,000	50	5,000	50
MML US, Inc.	20,000	100	20,000	100
Ossio, Inc.	2,500	—	—	—
Pelthos Therapeutics, Inc.	20,000	—	—	—
Samba TV, Inc.	5,000	75	5,000	75
Sonex Health, Inc.	10,000	100	—	—
Sparkcharge, Inc.	5,000	73	5,000	73
Supply Network Visibility Holdings, LLC	—	—	5,000	62
<b>Total</b>	<b>\$ 155,000</b>	<b>\$ 1,060</b>	<b>\$ 104,000</b>	<b>\$ 794</b>

The table above also provides the fair value of the Company's unfunded commitment liability as of March 31, 2026 and December 31, 2025, which totaled \$1.1 million and \$0.8 million, respectively. The fair value at inception of the delay draw credit agreements is equal to the fees and/or warrants received to enter into these agreements, taking into account the remaining terms of the agreements and the counterparties' credit profile. The unfunded commitment liability reflects the fair value of these future funding commitments and is included in total investments at fair value on the Company's consolidated statement of assets and liabilities.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

**Note 9. Concentrations of credit risk**

The Company's debt investments consist primarily of loans to development-stage companies at various stages of development in the technology, life science, healthcare information and services and sustainability industries. Many of these companies may have relatively limited operating histories and also may experience variation in operating results. Many of these companies conduct business in regulated industries and could be affected by changes in government regulations. Most of the Company's borrowers will need additional capital to satisfy their continuing working capital needs and other requirements, and in many instances, to service the interest and principal payments on the loans.

The Company's largest debt investments may vary from period to period as new debt investments are recorded and existing debt investments are repaid. The Company's five largest debt investments at cost represented 24% and 26% of total debt investments outstanding as of March 31, 2026 and December 31, 2025, respectively. The Company's five largest debt investments at fair value represented 24% and 26% of total debt investments outstanding as of March 31, 2026 and December 31, 2025, respectively. No single debt investment represented more than 10% of the total debt investments at cost or fair value as of March 31, 2026 and December 31, 2025. Investment income, consisting of interest and fees, can fluctuate significantly upon repayment of large debt investments. Interest income from the five largest debt investments at cost accounted for 23% and 24% of total interest and fee income on investments for the three months ended March 31, 2026 and 2025, respectively. Interest income from the five largest debt investments at fair value accounted for 23% and 24% of total interest and fee income on investments for the three months ended March 31, 2026 and 2025, respectively.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

**Note 10. Distributions**

Prior to January 1, 2026, the Company recorded distributions to common stockholders on the date the distribution was declared by the Board. On and after January 1, 2026, the Company records distributions to common stockholders on the ex-dividend date for such distribution. The following table summarizes the Company's distribution activity for the three months ended March 31, 2026 and for the year ended December 31, 2025:

Date Declared	Record Date	Payment Date	Amount Per Share	Cash Distribution	DRIP Shares Issued	DRIP Share Value
(In thousands, except share and per share data)						
<b>Three Months Ended March 31, 2026</b>						
February 27, 2026	May 18, 2026	June 16, 2026	\$ 0.06	\$ —	—	\$ —
February 27, 2026	April 16, 2026	May 15, 2026	0.06	—	—	—

February 28, 2025	March 17, 2025	April 15, 2025	0.11	4,245	23,001	192
			<u>\$ 1.32</u>	<u>\$ 55,043</u>	<u>377,712</u>	<u>\$ 2,495</u>

On May 1, 2026, the Board declared regular monthly cash distributions per share and, in accordance with the Company's previously announced intent to make additional distributions with its undistributed net investment income, or "spillover" income, special monthly cash distributions per share, payable as set forth in the following tables:

**Regular monthly distributions**

Ex-Dividend Date	Record Date	Payment Date	Distributions Declared
June 17, 2026	June 17, 2026	July 15, 2026	\$ 0.06
July 16, 2026	July 16, 2026	August 14, 2026	\$ 0.06
August 17, 2026	August 17, 2026	September 15, 2026	\$ 0.06

**Special monthly distributions**

Ex-Dividend Date	Record Date	Payment Date	Distributions Declared
June 17, 2026	June 17, 2026	July 15, 2026	\$ 0.03
July 16, 2026	July 16, 2026	August 14, 2026	\$ 0.03
August 17, 2026	August 17, 2026	September 15, 2026	\$ 0.03

After paying distributions of \$0.33 per share and earning net investment income of \$0.19 per share for the three months ended March 31, 2026, the Company's undistributed spillover income as of March 31, 2026 was \$0.52 per share. Spillover income includes any ordinary income and net capital gains from the preceding tax years that were not distributed during such tax years.

The Board sets the level of distributions for each quarter based on its results of operations, spillover income and longer-term outlook.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

**Note 11. Earnings Per Share**

The following table sets forth the computation of the basic and diluted earnings per common share for the three months ended March 31, 2026 and 2025:

	<b>Three months ended March 31,</b>	
	<b>2026</b>	<b>2025</b>
	(In thousands, except share and per share data)	
<b>Earnings per common share - basic</b>		
Numerator for basic earnings per share	\$ 2,778	\$ (21,436)
Denominator for basic weighted average shares	47,316,637	40,223,393
Earnings (loss) per common share - basic	\$ 0.06	\$ (0.53)
<b>Earnings per common share - diluted</b>		
Numerator for increase (decrease) in net assets per share	\$ 2,778	\$ (21,436)
Adjustment for interest expense and debt issuance costs on Convertible Notes (1)	\$ 423	\$ —
Numerator for diluted earnings per share	\$ 3,201	\$ (21,436)
Denominator for basic weighted average shares	47,316,637	40,223,393
Adjustment for dilutive effect of Convertible Notes (1)	—	—
Denominator for diluted weighted average shares	47,316,637	40,223,393
Earnings (loss) per common share - diluted	\$ 0.06	\$ (0.53)

(1) No adjustments for interest or incremental shares were included for the three months ended March 31, 2026 and 2025 because the effect would be antidilutive. The 2030 Convertible Notes were not outstanding as of March 31, 2025.

In certain circumstances, the Convertible Notes may be convertible into cash or shares of the Company's common stock, which can be dilutive to common stockholders. Diluted earnings (loss) available to each share of common stock outstanding during the reporting period included any additional shares of common stock that would be issued if all potentially dilutive securities were exercised. In accordance with ASU 2020-06, the Company is required to disclose diluted EPS using the if-converted method that assumes conversion of convertible securities at the beginning of the reporting period or at the issuance date and is intended to show the maximum dilution effect to common stockholders regardless of how the conversion can occur. The Convertible Notes convert at the greater of (i) volume-weighted average closing sale price for the five trading days immediately prior to the relevant conversion date, or (ii) the Company's most recently reported NAV per share immediately prior to the date of exercise. For the three months ended March 31, 2026, using the if-converted method, the 2031 Convertible Notes would convert at the Company's most recently reported NAV per share immediately prior to the beginning of the period, or \$7.12 per share. For the three months ended March 31, 2025, using the if-converted method, the 2031 Convertible Notes would convert at the volume-weighted average closing sale price for the five trading days immediately prior to the beginning of the period, or \$8.94 per share. For the three months ended March 31, 2026, using the if-converted method, the 2030 Convertible Notes would convert at the Company's most recently reported NAV per share immediately prior to the beginning of the period, or \$7.12 per share. For the three months ended March 31, 2026 and 2025, the impact of the hypothetical conversion of the Convertible Notes would have been antidilutive because interest net of tax and nondiscretionary adjustments per common share obtainable on conversion exceeded basic EPS.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

**Note 12. Financial highlights**

The following table shows financial highlights for the Company:

	<b>Three months ended March 31,</b>	
	<b>2026</b>	<b>2025</b>
<b>(In thousands, except share and per share data)</b>		
<b>Per share data:</b>		
Net asset value at beginning of period	\$ 6.98	\$ 8.43
Net investment income	0.19	0.27
Realized loss	(0.03)	—
Unrealized depreciation on investments	(0.10)	(0.80)
Net increase (decrease) in net assets resulting from operations	0.06	(0.53)
Distributions (1)	(0.06)	(0.33)
From net investment income	(0.06)	(0.33)
From net realized gain on investments	—	—
Return of capital	—	—
<b>Net asset value at end of period</b>	<b>\$ 6.98</b>	<b>\$ 7.57</b>
Per share market value, beginning of period	\$ 6.45	\$ 8.99
Per share market value, end of period	\$ 4.21	\$ 9.42
Total return based on a market value (2)	(29.6)%	8.5%
Shares outstanding at end of period	47,860,006	40,331,962
<b>Ratios to average net assets:</b>		
Expenses without incentive fees (3)	16.0%	16.7%
Incentive fees (3)	2.2%	—%
Net expenses (3)	18.2%	16.7%
Net investment income with incentive fees	11.0%	13.4%
Net assets at the end of the period	\$ 333,863	\$ 305,457
Average net asset value	\$ 326,183	\$ 320,821
Average debt per share	\$ 9.39	\$ 11.67
Portfolio turnover ratio	5.2% (4)	6.1%(4)

(1) Distributions are determined based on taxable income calculated in accordance with income tax regulations, which may differ from amounts determined under GAAP due to (i) changes in unrealized appreciation and depreciation, (ii) temporary and permanent differences in income and expense recognition, and (iii) the amount of spillover income carried over from a given tax year for distribution in the following tax year. The final determination of taxable income for each tax year, as well as the tax attributes for distributions in such tax year, will be made after the close of the tax year.

(2) The total return equals the change in the ending market value over the beginning of period price per share plus distributions paid per share during the period, divided by the beginning price.

(3) Annualized.

(4) Calculated by dividing (i) the lesser of purchases or sales of portfolio securities for the fiscal year by (ii) the monthly average of the value of portfolio securities owned by the Company during the fiscal year, with certain securities excluded from the numerator and denominator pursuant to applicable federal securities laws.

**Horizon Technology Finance Corporation and Subsidiaries**  
**Notes to Consolidated Financial Statements**

**Note 13. Subsequent Events**

On April 1, 2026, the Company funded a \$15.0 million debt investment to a new portfolio company, Stellar Cyber, Inc.

On April 14, 2026, the Company closed the Merger with MRCC. In connection with the closing of the Merger, the Company received approximately \$141.1 million in cash and issued 20,370,645 shares of its common stock in the aggregate, or 0.9402 shares of its common stock for each share of MRCC common stock, to MRCC stockholders (and payment of cash in lieu of fractional shares). Former MRCC stockholders and legacy stockholders of the Company own 29.86% and 70.14% of the combined company, respectively, immediately following the closing of the Merger.

On April 14, 2026, the Company repaid the outstanding balance of \$45.0 million on its Key Facility from the proceeds of its merger with MRCC.

On April 30, 2026, the Company funded a \$3.0 million debt investment to a new portfolio company, Bastille Buyer, Inc.

On April 30, 2026, the Company funded a \$4.0 million debt investment to a new portfolio company, Volt Bidco, Inc.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

*In this quarterly report on Form 10-Q, except where the context suggests otherwise, the terms "we," "us," "our" and "Horizon Technology Finance" refer to Horizon Technology Finance Corporation and its consolidated subsidiaries. The information contained in this section should be read in conjunction with our consolidated financial statements and related notes thereto appearing elsewhere in this quarterly report on Form 10-Q.*

**Forward-looking statements**

This quarterly report on Form 10-Q, including the Management's Discussion and Analysis of Financial Condition and Results of Operations, contains statements that constitute forward-looking statements, which relate to future events or our future performance or financial condition. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about our industry, our beliefs and our assumptions. The forward-looking statements contained in this quarterly report on Form 10-Q involve risks and uncertainties, including statements as to:

- our future operating results, including the performance of our existing debt investments, warrants and other investments;
- the introduction, withdrawal, success and timing of business initiatives and strategies;
- the consummation of the transactions contemplated by our merger with MRCC (as defined below);
- general economic and political trends and other external factors, including continuing supply chain disruptions, increased inflation, tariffs and trade disputes with other countries and a general slowdown in economic activity;
- our business prospects and the prospects of our portfolio companies;
- the impact of changes in laws or regulations (including the interpretation thereof), including tax laws, governing our operations or the operations of our portfolio companies or the operations of our competitors;
- the relative and absolute investment performance and operations of our Advisor;
- the impact of increased competition;
- the impact of investments we intend to make and future acquisitions and divestitures;
- the unfavorable resolution of legal proceedings;
- geopolitical turmoil and the potential for volatility in energy prices and disruptions to global supply chains resulting from such turmoil and its impact on the industries in which we invest;
- political and regulatory conditions that contribute to uncertainty and market volatility, including legislative, regulatory, trade and policy changes;
- the impact on our business of a U.S. government shutdown;
- the impact, extent and timing of technological changes and the adequacy of intellectual property protection;
- our regulatory structure and tax status;
- changes in the general interest rate environment;
- our ability to qualify and maintain qualification as a RIC and as a BDC;
- the adequacy of our cash resources and working capital;
- any losses or operations disruptions caused by us, our Advisor or our portfolio companies holding cash balances at financial institutions that exceed federally insured limits or by disruptions in the financial services industry;
- the timing of cash flows, if any, from the operations of our portfolio companies, and the resulting effect on our portfolio companies' decisions to make payment-in-kind ("PIK") interest payments or ability to make end of term payments;
- the impact of interest rate volatility on our results, particularly if we use leverage as part of our investment strategy;

## Horizon Technology Finance Corporation and Subsidiaries

- the ability of our portfolio companies to achieve their objective;
- the impact of legislative and regulatory actions and reforms and regulatory supervisory or enforcement actions of government agencies relating to us or our Advisor;
- our contractual arrangements and relationships with third parties;
- our ability to access capital and any future financings by us;
- our use of financial leverage;
- the ability of our Advisor to attract and retain highly talented professionals;
- the impact of changes to tax legislation and, generally, our tax position; and
- our ability to fund unfunded commitments.

We use words such as “anticipates,” “believes,” “expects,” “intends,” “seeks” and similar expressions to identify forward-looking statements. Undue influence should not be placed on the forward-looking statements as our actual results could differ materially from those projected in the forward-looking statements for any reason, including the factors in “Risk Factors” and elsewhere in our annual report on Form 10-K for the year ended December 31, 2025, and elsewhere in this quarterly report on Form 10-Q.

We have based the forward-looking statements included in this quarterly report on Form 10-Q on information available to us on the date of this quarterly report on Form 10-Q, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements in this quarterly report on Form 10-Q, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we in the future may file with the U.S. Securities and Exchange Commission, or the SEC, including periodic reports on Form 10-Q and Form 10-K and current reports on Form 8-K.

You should understand that under Sections 27A(b)(2)(B) and (D) of the Securities Act and Sections 21E(b)(2)(B) and (D) of the Exchange Act, the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995 do not apply to statements made in connection with any annual or quarterly reports we file under the Exchange Act.

### Overview

We are a specialty finance company that lends to and invests in development-stage companies in the technology, life science, healthcare information and services and sustainability industries, which we refer to as our “Target Industries.” Our investment objective is to maximize our investment portfolio’s total return by generating current income from the debt investments we make and capital appreciation from the warrants we receive when making such debt investments. We are focused on making secured debt investments, which we refer to collectively as “Venture Loans,” to venture capital and private equity backed companies and publicly traded companies in our Target Industries, which we refer to as “Venture Lending.” Our debt investments are typically secured by first liens or first liens behind a secured revolving line of credit, or collectively “Senior Term Loans.” Some of our debt investments may also be subordinated to term debt provided by third parties. As of March 31, 2026, 97.5%, or \$629.3 million, of our debt investment portfolio at fair value consisted of Senior Term Loans. Venture Lending is typically characterized by (1) the making of a secured debt investment after a venture capital or equity investment in the portfolio company has been made, which investment provides a source of cash to fund the portfolio company’s debt service obligations under the Venture Loan, (2) the senior priority of the Venture Loan which requires repayment of the Venture Loan prior to the equity investors realizing a return on their capital, (3) the amortization of the Venture Loan and (4) the lender’s receipt of warrants or other success fees with the making of the Venture Loan.

We are an externally managed, closed-end, non-diversified management investment company that has elected to be regulated as a BDC under the Investment Company Act of 1940, as amended, or the 1940 Act. In addition, for U.S. federal income tax purposes, we have elected to be treated as a RIC under Subchapter M of the Code. As a BDC, we are required to comply with regulatory requirements, including limitations on our use of debt. We are permitted to, and expect to, finance our investments through borrowings subject to a 150% asset coverage test. As defined in the 1940 Act, asset coverage of 150% means that for every \$100 of net assets a BDC holds, it may raise up to \$200 from borrowing and issuing senior securities. The amount of leverage that we may employ will depend on our assessment of market conditions and other factors at the time of any proposed borrowing. As a RIC, we generally are not subject to corporate-level income taxes on our investment company taxable income, determined without regard to any deductions for dividends paid, and our net capital gain that we distribute as dividends for U.S. federal income tax purposes to our stockholders as long as we meet certain source-of-income, distribution, asset diversification and other requirements.

## Horizon Technology Finance Corporation and Subsidiaries

We were formed in March 2010 and completed an initial public offering in October 2010.

Our investment activities, and our day-to-day operations, are managed by our Advisor and supervised by our Board, of which a majority of the members are independent of us. Under the Investment Management Agreement, we have agreed to pay our Advisor a base management fee and an incentive fee for its advisory services to us. We have also entered into the Administration Agreement with our Advisor under which we have agreed to reimburse our Advisor for our allocable portion of overhead and other expenses incurred by our Advisor in performing its obligations under the Administration Agreement.

On April 14, 2026, the Company completed its previously announced merger with Monroe Capital Corporation (“MRCC”), HMMS, Inc. (“Merger Sub”), Monroe Capital BDC Advisors, LLC, and the Advisor, pursuant to the Agreement and Plan of Merger, dated as of August 7, 2025 (the “Merger Agreement”). Pursuant to the Merger Agreement, immediately following the Asset Sale (as defined below) and at the effective time of the Merger (the “Effective Time”), Merger Sub merged with and into MRCC, with MRCC continuing as the surviving company and as a wholly owned subsidiary of the Company, and, immediately thereafter, MRCC merged into the Company, with the Company continuing as the surviving company (collectively, the “Mergers”). MRCC also entered into an Asset Purchase Agreement (the “Asset Purchase Agreement”) with Monroe Capital Income Plus Corporation (“MCIP”), and MC Advisors, pursuant to which, MCIP acquired all of MRCC’s investment assets and liabilities at fair value, for cash (the “Asset Sale” and together with the Merger, the “Transactions”).

### Portfolio composition and investment activity

The following table shows our portfolio by type of investment as of March 31, 2026 and December 31, 2025:

	March 31, 2026			December 31, 2025		
	Number of Investments	Fair Value	Percentage of Total Portfolio	Number of Investments	Fair Value	Percentage of Total Portfolio
	(Dollars in thousands)					
Debt investments	41	\$ 645,629	92.8%	38	\$ 596,025	92.1%
Warrants	74	16,685	2.4	72	16,648	2.6
Other investments	8	3,664	0.5	8	3,444	0.5
Equity	17	29,719	4.3	17	31,127	4.8
<b>Total</b>		<b>\$ 695,697</b>	<b>100.0%</b>		<b>\$ 647,244</b>	<b>100.0%</b>

The following table shows total portfolio investment activity as of and for the three months ended March 31, 2026 and 2025:

	For the three months ended March 31,	
	2026	2025
Beginning portfolio	\$ 647,244	\$ 697,891
New debt and equity investments	120,004	102,439
Less refinanced debt balances	(30,000)	(28,750)
Net new debt and equity investments	90,004	73,689
Principal payments received on investments	(4,884)	(11,171)
Early pay-offs and principal paydowns	(33,164)	(39,574)
PIK interest on investments	1,278	285
Accretion of debt investment fees	1,619	1,388
New debt investment fees	(1,585)	(804)
Warrants received in settlement of fee income	—	5
Proceeds from sale of investments	(104)	(1)
Net realized (loss) gain on investments	(161)	1
Net unrealized depreciation on investments	(4,600)	(32,156)
Other	50	—
<b>Ending portfolio</b>	<b>\$ 695,697</b>	<b>\$ 689,553</b>

We receive payments on our debt investments based on scheduled amortization of the outstanding balances. In addition, we receive repayments of some of our debt investments prior to their scheduled maturity date. The frequency or volume of these repayments may fluctuate significantly from period to period.

**Horizon Technology Finance Corporation and Subsidiaries**

The following table shows our debt investments by industry sector as of March 31, 2026 and December 31, 2025:

	March 31, 2026		December 31, 2025	
	Debt Investments at Fair Value	Percentage of Total Portfolio	Debt Investments at Fair Value	Percentage of Total Portfolio
(Dollars in thousands)				
<b>Life Science</b>				
Biotechnology	\$ 84,814	13.1%	\$ 57,753	9.7%
Medical Device	240,241	37.3	213,523	35.8
<b>Technology</b>				
Consumer-Related	17,348	2.7	17,263	2.9
Software	183,022	28.3	185,534	31.1
<b>Sustainability</b>				
Alternative Energy	4,874	0.8	4,869	0.8
Other Sustainability	30,491	4.7	29,563	5.0
<b>Healthcare Information and Services</b>				
Diagnostics	6,809	1.1	6,605	1.1
Other Healthcare	34,527	5.3	34,469	5.8
Software	43,503	6.7	46,446	7.8
<b>Total</b>	<b>\$ 645,629</b>	<b>100.0%</b>	<b>\$ 596,025</b>	<b>100.0%</b>

The largest debt investments in our portfolio may vary from period to period as new debt investments are originated and existing debt investments are repaid. Our five largest debt investments at cost represented 24% and 26% of total debt investments outstanding as of March 31, 2026 and December 31, 2025, respectively. Our five largest debt investments at fair value represented 24% and 26% of total debt investments outstanding as of March 31, 2026 and December 31, 2025, respectively. No single debt investment at cost or fair value represented more than 10% of our total debt investments as of March 31, 2026 and December 31, 2025.

**Debt investment asset quality**

We use an internal credit rating system which rates each debt investment on a scale of 4 to 1, with 4 being the highest credit quality rating and 3 being the rating for a standard level of risk. A rating of 2 represents an increased level of risk and, while no loss is currently anticipated for a 2-rated debt investment, there is potential for future loss of principal. A rating of 1 represents a deteriorating credit quality and a high degree of risk of loss of principal. Our internal credit rating system is not a national credit rating system. As of March 31, 2026 and December 31, 2025, our debt investments had a weighted average credit rating of 3.0 and 2.9, respectively. The following table shows the classification of our debt investment portfolio by credit rating as of March 31, 2026 and December 31, 2025:

Credit Rating	March 31, 2026			December 31, 2025		
	Number of Investments	Debt Investments at Fair Value	Percentage of Debt Investments	Number of Investments	Debt Investments at Fair Value	Percentage of Debt Investments
(Dollars in thousands)						
4	5	\$ 71,009	11.0%	5	\$ 72,213	12.1%
3	28	500,119	77.4	25	445,790	74.8
2	4	50,208	7.8	4	53,503	9.0
1	4	24,293	3.8	4	24,519	4.1
<b>Total</b>	<b>41</b>	<b>\$ 645,629</b>	<b>100.0%</b>	<b>38</b>	<b>\$ 596,025</b>	<b>100.0%</b>

As of March 31, 2026, there were four debt investments with an internal credit rating of 1, with an aggregate cost of \$33.1 million and an aggregate fair value of \$24.3 million and there were four debt investments with an internal credit rating of 2, with an aggregate cost of \$56.9 million and an aggregate fair value of \$50.2 million. As of December 31, 2025, there were four debt investments with an internal credit rating of 1, with an aggregate cost of \$33.8 million and an aggregate fair value of \$24.5 million and there were four debt investments with an internal credit rating of 2, with an aggregate cost of \$56.8 million and an aggregate fair value of \$53.5 million.

**Consolidated results of operations**

As a BDC and a RIC, we are subject to certain constraints on our operations, including limitations imposed by the 1940 Act and the Code. The consolidated results of operations described below may not be indicative of the results we report in future periods.

**Horizon Technology Finance Corporation and Subsidiaries**
*Comparison of the three months ended March 31, 2026 and 2025*

The following table shows consolidated results of operations for the three months ended March 31, 2026 and 2025:

	<b>For the three months ended March 31,</b>	
	<b>2026</b>	<b>2025</b>
	<b>(In thousands)</b>	
Total investment income	\$ 24,079	\$ 24,516
Total expenses	14,841	13,419
Net investment income before excise tax	9,238	11,097
Provision for excise tax	267	378
Net investment income	8,971	10,719
Net realized (loss) gain	(1,593)	1
Net unrealized depreciation on investments	(4,600)	(32,156)
Net increase (decrease) in net assets resulting from operations	\$ 2,778	\$ (21,436)
Average debt investments, at fair value	\$ 632,002	\$ 650,059
Average earning debt investments	\$ 634,228	\$ 653,748
Average gross assets less cash	\$ 717,539	\$ 732,557
Average borrowings outstanding	\$ 444,222	\$ 469,485

Net increase (decrease) in net assets resulting from operations can vary substantially from period to period for various reasons, including, without limitation, the recognition of realized gains and losses and unrealized appreciation and depreciation on investments. As a result, quarterly comparisons of net increase in net assets resulting from operations may not be meaningful.

**Investment income**

Total investment income decreased by \$0.4 million, or 1.8%, to \$24.1 million for the three months ended March 31, 2026 as compared to the three months ended March 31, 2025. For the three months ended March 31, 2026, total investment income consisted primarily of (1) \$23.1 million in interest income from investments, which included \$5.0 million in income from the accretion of origination fees and end of term payments and \$1.3 million in PIK interest income and (2) \$1.0 million in fee income.

Interest income on debt investments decreased by \$0.4 million, or 1.6%, to \$23.1 million, for the three months ended March 31, 2026 compared to the three months ended March 31, 2025. Interest income on debt investments for the three months ended March 31, 2026 as compared to the three months ended March 31, 2025 decreased primarily due to a decrease in the Prime Rate which is the base rate for most of our variable rate debt investments and a decrease of \$19.5 million, or 3.0%, in our average earning debt investments partially offset by an increase in accelerated income from prepayments. The proportion of total investment income that resulted from the portion of ETPs not received in cash for the three months ended March 31, 2026 and 2025 was 6.0% and 4.6%, respectively. The increase in the proportion of total investment income that resulted from the portion of ETPs not received in cash was a result of an increase in accretion of final payments for the three months ended March 31, 2026 compared to the three months ended March 31, 2025.

PIK interest income increased by \$1.0 million, or 348.4%, to \$1.3 million for the three months ended March 31, 2026 compared to the three months ended March 31, 2025. For the three months ended March 31, 2026 and 2025, 5.3% and 1.2%, respectively, of total investment income was attributable to non-cash PIK interest income. The increase in PIK interest income as a percentage of total investment income was primarily due to an increase in earning assets that contain a PIK feature for the three months ended March 31, 2026 compared to the three months ended March 31, 2025.

Fee income, which includes success fee, other fee and prepayment fee income on debt investments, decreased by \$0.1 million, or 6.1%, to \$1.0 million for the three months ended March 31, 2026 compared to the three months ended March 31, 2025 primarily due to a lower success fee and other fee income for the three months ended March 31, 2026 compared to the three months ended March 31, 2025.

The following table shows our dollar-weighted annualized yield for the three months ended March 31, 2026 and 2025:

<b>Investment type:</b>	<b>For the three months ended March 31,</b>	
	<b>2026</b>	<b>2025</b>
Debt investments(1)	15.2%	15.0%
All investments(1)	14.0%	13.8%

(1) We calculate the dollar-weighted annualized yield on average investment type for any period as (1) total related investment income during the period divided by (2) the average of the fair value of the investment type outstanding on (a) the last day of the calendar month immediately preceding the first day of the period and (b) the last day of each calendar month during the period. The dollar-weighted annualized yield on average investment type is higher than what investors will realize because it does not reflect our expenses or any sales load paid by investors.

Investment income, consisting of interest income and fees on debt investments, can fluctuate significantly upon repayment of large debt investments. Interest income from the five largest debt investments at cost in the aggregate accounted for 23% and 24% of investment income for the three months ended March 31, 2026 and 2025, respectively. Interest income from the five largest debt investments at fair value in the aggregate accounted for 23% and 24% of investment income for the three months ended March 31, 2026 and 2025, respectively.

**Expenses**

Total expenses increased by \$1.4 million, or 10.6%, to \$14.8 million for the three months ended March 31, 2026 as compared to the three months ended March 31, 2025. Total expenses for each period consisted of interest expense, base management fee, incentive and administrative fees, professional fees and general and administrative expenses.

Interest expense decreased by \$0.5 million, or 5.8%, to \$8.2 million for the three months ended March 31, 2026 as compared to the three months ended March 31, 2025. Interest expense, which includes the amortization of debt issuance costs, decreased primarily due to a decrease in average borrowings for the three months ended March 31, 2026 of \$25.3 million, or 5.4%, as compared to the three months ended March 31, 2025 and a decrease in our effective cost of debt for the three months ended March 31, 2026 as compared to the three months ended March 31, 2025.

Base management fee expense decreased by \$0.1 million, or 1.9%, to \$3.1 million for the three months ended March 31, 2026 as compared to the three months ended March 31, 2025. Base management fee decreased primarily due to a decrease of \$15.0 million, or 2.1%, in average gross assets less cash for the three months ended March 31, 2026 as compared to the three months ended March 31, 2025.

Performance based incentive fee expense increased by \$1.8 million to \$1.8 million for the three months ended March 31, 2026 as compared to the three months ended March 31, 2025. There was no performance based incentive fee expense for three months ended March 31, 2025. This increase was due to an Incentive Fee Cap calculated based on the Incentive Fee Cap and Deferral Mechanism in our Investment Management Agreement of \$0.4 million for the three months ended March 31, 2026 compared to an Incentive Fee Cap of \$2.1 million for the three months ended March 31, 2025. The Incentive Fee Cap and Deferral Mechanism resulted in \$0.4 million and \$2.1 million of reduced incentive fee expense and increased net investment income for the three months ended March 31, 2026 and 2025, respectively. The incentive fee on pre-incentive fee net investment income was subject to the Incentive Fee Cap for the three months ended March 31, 2026 due to the cumulative incentive fees paid exceeding 20% of cumulative pre-incentive fee net return during the applicable quarter and the 11 preceding full calendar quarters.

Administrative fee expense, professional fees and general and administrative expenses were \$1.8 million and \$1.6 million for the three months ended March 31, 2026 and 2025, respectively.

***Net realized gains and losses and net unrealized appreciation and depreciation***

Realized gains or losses on investments are measured by the difference between the net proceeds from the repayment or sale and the cost basis of our investments without regard to unrealized appreciation or depreciation previously recognized. Realized gains or losses on investments include investments charged off during the period, net of recoveries. The net unrealized appreciation or depreciation on investments primarily reflects the change in portfolio investment fair values during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized.

During the three months ended March 31, 2026 and March 31, 2025, we realized net losses on investments totaling \$0.2 million and \$0.001 million, respectively. During the three months ended March 31, 2026, we converted \$15.1 million in outstanding principal of the 2030 Convertible Notes (as defined below) which resulted in a realized loss on extinguishment of debt of \$1.3 million. During the same period, we redeemed all of the outstanding principal balance of the 2026 Notes (as defined below) which resulted in a realized loss on extinguishment of debt of \$0.1 million.

During the three months ended March 31, 2026, net unrealized depreciation on investments totaled \$4.6 million which was primarily due to the unrealized depreciation on two of our debt investments and one of our equity investments and the unrealized depreciation on our warrant investments. During the three months ended March 31, 2025, net unrealized depreciation on investments totaled \$32.2 million which was primarily due to the unrealized depreciation on three of our debt investments and two of our equity investments. The difficult equity fundraising market and under performance of certain portfolio companies, among other factors, resulted in our reduction of the fair market value of the debt investments in such portfolio companies, thus increasing the unrealized depreciation on such debt investments.

***Liquidity and capital resources***

As of March 31, 2026 and December 31, 2025, we had cash and investments in money market funds of \$70.6 million and \$140.2 million, respectively. Cash and investments in money market funds are available to fund new investments, reduce borrowings, pay expenses, repurchase common stock and pay distributions. In addition, as of March 31, 2026 and December 31, 2025, we had \$2.6 million and \$2.5 million, respectively, of restricted investments in money market funds. Restricted investments in money market funds may be used to make monthly interest and principal payments on our NYL Facility or our Nuveen Facility. Our primary sources of capital have been from our public equity offerings, use of our revolving credit facility (the “Key Facility”) with KeyBank National Association (“Key”), the Note Funding Agreement (the “NYL Facility”), with several entities owned or affiliated with New York Life Insurance Company and the Nuveen Note Funding Agreement (the “Nuveen Facility”, together with the Key Facility and the NYL Facility, the “Credit Facilities”) with several entities owned or affiliated with Nuveen Alternative Advisors LLC, and issuance of our public and private debt securities.

On September 22, 2023, we entered into an At-The-Market (or “ATM”) sales agreement (or the “2023 Equity Distribution Agreement”) with Goldman Sachs & Co. LLC and B. Riley FBR, Inc., (each a “Sales Agent” and, collectively, the “Sales Agents”). The 2023 Equity Distribution Agreement provides that we may offer and sell shares of our common stock from time to time through the Sales Agents up to \$150.0 million worth of our common stock, in amounts and at times to be determined by us. Sales of our common stock, if any, may be made in negotiated transactions or transactions that are deemed to be “at-the-market,” as defined in Rule 415 under the Securities Act, including sales made directly on the NASDAQ or similar securities exchange or sales made to or through a market maker other than on an exchange, at prices related to the prevailing market prices or at negotiated prices.

During the three months ended March 31, 2026, we did not sell any shares of common stock under the 2023 Equity Distribution Agreement.

During the three months ended March 31, 2025, we sold 404,305 shares of common stock under the 2023 Equity Distribution Agreement. For the same period, we received total accumulated net proceeds of approximately \$3.6 million, including \$0.1 million of offering expenses, from these sales.

## Horizon Technology Finance Corporation and Subsidiaries

On May 1, 2026, our Board extended a previously authorized stock repurchase program which allows us to repurchase up to \$10.0 million of our common stock at prices below our net asset value (“NAV”) per share as reported in our most recent consolidated financial statements, provided such purchases, in the aggregate, do not exceed two percent (2%) of the shares outstanding at the time of purchase and such shares are purchased only when the such shares are trading below 90% of our most recently disclosed NAV per share. Under the repurchase program, we may, but are not obligated to, repurchase shares of our outstanding common stock in the open market or in privately negotiated transactions from time to time. Any repurchases by us will comply with the requirements of Rule 10b-18 under the Exchange Act and any applicable requirements of the 1940 Act. Unless extended by our Board, the repurchase program will terminate on the earlier of June 30, 2027 or the repurchase of \$10.0 million of our common stock. During the three months ended March 31, 2026 and 2025, we did not make any repurchases of our common stock under our stock repurchase program. From the date of the inception of our stock repurchase program through March 31, 2026, we repurchased 167,465 shares of our common stock at an average price of \$11.22 on the open market at a total cost of \$1.9 million. From time to time, our Board assesses the size and effectiveness of the stock repurchase program and could elect to increase or decrease the size of the program in the future.

At March 31, 2026, the outstanding principal balance under the Key Facility was \$45.0 million. At December 31, 2025, there was no outstanding principal balance under the Key Facility. As of March 31, 2026 and December 31, 2025, we had borrowing capacity under the Key Facility of \$105.0 million and \$150.0, respectively. At March 31, 2026 and December 31, 2025, \$23.3 million and \$49.6 million, respectively, was available for borrowing under the Key Facility, subject to existing terms and advance rates.

At March 31, 2026 and December 31, 2025, the outstanding principal balance under the NYL Facility was \$181.0 million. As of March 31, 2026 and December 31, 2025, we had borrowing capacity under the NYL Facility of \$69.0 million. At March 31, 2026 and December 31, 2025, \$2.6 million and \$1.9 million, respectively, was available for borrowing under the NYL Facility, subject to existing terms and advance rates.

At March 31, 2026 and December 31, 2025, the outstanding principal balance under the Nuveen Facility was \$90.0 million. As of March 31, 2026 and December 31, 2025, we had borrowing capacity under the Nuveen Facility of \$110.0 million. At March 31, 2026 and December 31, 2025, \$22.3 million and \$12.1 million, respectively, was available for borrowing under the Nuveen Facility, subject to existing terms and advance rates.

On October 17, 2024, the Company entered into a note purchase agreement (the “2031 Note Purchase Agreement”), by and among the Company, and each purchaser named therein, in connection with the issuance and sale of \$20.0 million aggregate principal of the Company’s 7.125% convertible notes due 2031 (the “2031 Convertible Notes”). At March 31, 2026 and December 31, 2025, the aggregate outstanding principal balance of the 2031 Convertible Notes was \$2.8 million.

On September 4, 2025, the Company entered into a note purchase agreement (the “2030 Note Purchase Agreement”), by and among the Company, and each purchaser named therein, in connection with the issuance and sale of \$40.0 million aggregate principal of the Company’s 5.50% convertible notes due 2030 (the “2030 Convertible Notes”). At March 31, 2026 and December 31, 2025, the aggregate outstanding principal balance of the 2030 Convertible Notes was \$16.5 million and \$31.5 million, respectively.

Our operating activities used cash of \$42.1 million for the three months ended March 31, 2026, and our financing activities used cash of \$27.3 million for the same period. Our operating activities used cash primarily to purchase investments in portfolio companies offset by cash provided by principal payments received on our debt investments. Our financing activities used cash primarily to repay our 2026 Notes and to pay distributions to our stockholders partially offset by advances on our Key Facility.

Our operating activities used cash of \$13.2 million for the three months ended March 31, 2025, and our financing activities used cash of \$10.2 million for the same period. Our operating activities used cash primarily to purchase investments in portfolio companies partially offset by cash provided by principal payments received on our debt investments. Our financing activities used cash primarily to repay our 2022 Asset-Backed Notes and to pay distributions to our stockholders partially offset by an advance on our Nuveen Facility and the sale of shares through our ATM for net proceeds of \$3.6 million.

Our primary use of available funds is to make debt investments in portfolio companies and for general corporate purposes. We expect to raise additional equity and debt capital opportunistically as needed and, subject to market conditions, to support our future growth to the extent permitted by the 1940 Act.

In order to remain subject to taxation as a RIC, we intend to distribute to our stockholders all or substantially all of our investment company taxable income. In addition, as a BDC, we are required to maintain asset coverage of at least 150%. This requirement limits the amount that we may borrow.

We believe that our current cash, cash generated from operations, and funds available from our Credit Facilities will be sufficient to meet our working capital and capital expenditure commitments for at least the next 12 months.

**Current borrowings**

The following table shows our borrowings as of March 31, 2026 and December 31, 2025:

	March 31, 2026			December 31, 2025		
	Total Commitment	Balance Outstanding	Unused Commitment	Total Commitment	Balance Outstanding	Unused Commitment
	(In thousands)					
Key Facility	\$ 150,000	\$ 45,000	\$ 105,000	\$ 150,000	\$ —	\$ 150,000
NYL Facility	250,000	181,000	69,000	250,000	181,000	69,000
Nuveen Facility	200,000	90,000	110,000	200,000	90,000	110,000
2028 Notes	57,500	57,500	—	57,500	57,500	—
2027 Notes	57,500	57,500	—	57,500	57,500	—
2026 Notes	—	—	—	57,500	57,500	—
2030 Convertible Notes	16,450	16,450	—	31,500	31,500	—
2031 Convertible Notes	2,750	2,750	—	2,750	2,750	—
Total before debt issuance costs	734,200	450,200	284,000	806,750	477,750	329,000
Unamortized debt issuance costs attributable to term borrowings	—	(3,034)	—	—	(4,723)	—
Total borrowings outstanding, net	\$ 734,200	\$ 447,166	\$ 284,000	\$ 806,750	\$ 473,027	\$ 329,000

**Credit Facilities**
**Key Facility**

We entered into the Key Facility effective November 4, 2013. On February 26, 2026, we amended the Key Facility, among other things, (i) to make Michael P. Balkin and Paul G. Seitz each an “Authorized Person”, (ii) to amend certain requirements to make a debt investment eligible for the borrowing base and (iii) to amend certain concentration limits. On June 20, 2024, we amended the Key Facility, among other things, (i) to extend the date on which we may request advances under the Key Facility to June 20, 2027 and to extend the maturity date to June 20, 2029 and (ii) to amend the interest rate to be based on the rate of interest published in The Wall Street Journal as the prime rate in the United States plus 0.10%, with an interest rate floor of 4.10%. Prior to June 20, 2024, the interest rate on the Key Facility was based on Prime plus 0.25%, with a prime rate floor of 4.25%. The prime rate was 6.75% as of March 31, 2026 and December 31, 2025. The interest rate in effect was 6.85% as of March 31, 2026 and December 31, 2025. The Key Facility requires the payment of an unused line fee in an amount up to 0.75% of any unborrowed amount available under the facility annually.

On June 29, 2023, we amended the Key Facility to, among other things, increase the commitment amount to \$150 million and to increase the amount of the accordion feature which now allows the potential increase in the total commitment amount to \$300 million. The Key Facility is collateralized by debt investments held by Credit II and permits an advance rate of up to sixty percent (60%) of eligible debt investments held by Credit II. The Key Facility contains covenants that, among other things, require us to maintain a minimum net worth, to restrict the debt investments securing the Key Facility to certain criteria for qualified debt investments and to comply with portfolio company concentration limits as defined in the related loan agreement. After the period during which we may request advances under the Key Facility (or the “Revolving Period”), we may not request new advances, and we must repay the outstanding advances under the Key Facility as of such date, at such times and in such amounts as are necessary to maintain compliance with the terms and conditions of the Key Facility, particularly the condition that the principal balance of the Key Facility not exceed sixty percent (60%) of the aggregate principal balance of our eligible debt investments to our portfolio companies.

**NYL Facility**

HFI is a wholly-owned subsidiary of HSLFI. HFI entered into the NYL Facility with the NYL Noteholders for an aggregate purchase price of up to \$100.0 million, with an accordion feature of up to \$200.0 million at the mutual discretion and agreement of HSLFI and the NYL Noteholders. On June 1, 2018, HSLFI sold or contributed to HFI certain secured loans made to certain portfolio companies pursuant to the Sale and Servicing Agreement. Any notes issued by HFI are collateralized by all investments held by HFI and permit an advance rate of up to 67% of the aggregate principal amount of eligible debt investments. All advances under the NYL Facility are scheduled to mature in June 2030.

On May 24, 2023, we amended the NYL Facility to, among other things, increase the commitment by \$50.0 million to enable our wholly-owned subsidiary to issue up to \$250.0 million of secured notes. On April 25, 2025, we amended the NYL Facility to, among other things, extend the investment period to June 5, 2027. In addition, the amendment amended the interest rate for advances made after April 25, 2025, fixing the interest rate at the greater of (i) 4.60% and (ii) the Three Year I Curve plus 2.95% with the interest rate to be reset on any advance date.

Under the terms of the NYL Facility, we are required to maintain a reserve cash balance, which may be used to pay monthly interest and principal payments on the NYL Facility. We have segregated these funds and classified them as restricted investments in money market funds. At March 31, 2026 and December 31, 2025, there were approximately \$1.4 million of such restricted investments.

There were \$181.0 million in notes issued to the NYL Noteholders as of March 31, 2026 and December 31, 2025 at an interest rate of 6.57%. As of March 31, 2026 and December 31, 2025, we had borrowing capacity under the NYL Facility of \$69.0 million. At March 31, 2026 and December 31, 2025, \$2.6 million and \$1.9 million, respectively, was available for borrowing, subject to existing terms and advance rates.

### *Nuveen Facility*

HFII entered into the Nuveen Facility with the Nuveen Noteholders for an aggregate purchase price of up to \$100.0 million, with an accordion feature of up to \$200.0 million at the mutual discretion and agreement us and the Nuveen Noteholders. On June 21, 2024, we sold or contributed to HFII certain secured loans made to certain portfolio companies pursuant to the Sale and Servicing Agreement. Any notes issued by HFII are collateralized by all investments held by HFII and permit an advance rate of up to 67.5% of the aggregate principal amount of eligible debt investments. The Nuveen Facility bore interest, payable monthly, determined at a rate per annum equal to the greater of (i) the yield for the United States Treasury constant maturity 3-year and 5-year in the most recent statistical release published by the Board of Governors of the Federal Reserve System designated as “Selected Interest Rates (Daily) – H.15” interpolated to a 4.88-year weighted average life (the “Pricing Benchmark”) plus 3.15% and (ii) 5.00%.

On May 23, 2025, we amended the Nuveen Facility to, among other things, extend the investment period to June 21, 2028 and the maturity date to June 10, 2034, and increase the commitment by \$100.0 million which enables our wholly-owned subsidiary to issue up to \$200.0 million of secured notes. In addition, the amendment amended the interest rate for advances made after May 23, 2025, fixing the interest rate at the greater of (i) 5.00% and (ii) the Pricing Benchmark plus 2.95%.

Under the terms of the Nuveen Facility, we are required to maintain a reserve cash balance, which may be used to pay monthly interest and principal payments on the Nuveen Facility. We have segregated these funds and classified them as restricted investments in money market funds. At March 31, 2026 and December 31, 2025, there were approximately \$1.3 million and \$1.1 million, respectively, of such restricted investments.

There were \$90.0 million in notes issued to the Nuveen Noteholders as of March 31, 2026 and December 31, 2025 at an interest rate of 7.21%. As of March 31, 2026 and December 31, 2025, we had borrowing capacity under the Nuveen Facility of \$110.0 million. At March 31, 2026 and December 31, 2025, \$22.3 million and \$12.1 million, respectively, was available for borrowing, subject to existing terms and advance rates.

### *Unsecured Notes*

#### *2026 Notes*

On March 30, 2021, we issued and sold an aggregate principal amount of \$57.5 million of 4.875% notes due in 2026. The amount of 2026 Notes issued and sold included the full exercise by the underwriters of their option to purchase \$7.5 million in aggregate principal of additional notes. The 2026 Notes had a stated maturity of March 30, 2026 and could have been redeemed in whole or in part at our option at any time or from time to time on or after March 30, 2023 at a redemption price of \$25 per security plus accrued and unpaid interest. The 2026 Notes bore interest at a rate of 4.875% per year, payable quarterly on March 30, June 30, September 30 and December 30 of each year. The 2026 Notes were our direct unsecured obligations and (i) ranked equally in right of payment with our current and future unsecured indebtedness; (ii) were senior in right of payment to any of our future indebtedness that expressly provides it is subordinated to the 2026 Notes; (iii) were effectively subordinated to all of our existing and future secured indebtedness (including indebtedness that is initially unsecured to which we subsequently grant security), to the extent of the value of the assets securing such indebtedness, and (iv) were structurally subordinated to all existing and future indebtedness and other obligations of any of our subsidiaries. The 2026 Notes were listed on the New York Stock Exchange under the symbol “HTFB”. On January 28, 2026, we redeemed all of the outstanding principal balance of the 2026 Notes plus accrued interest. We accelerated \$0.1 million of unamortized debt issuance costs related to the 2026 Notes.

#### *2027 Notes*

On June 15, 2022, we issued and sold an aggregate principal amount of \$50.0 million of 6.25% notes due in 2027 and on July 11, 2022, pursuant to the underwriters’ 30 day option to purchase additional notes, we sold an additional \$7.5 million of such notes (collectively, the “2027 Notes”). The 2027 Notes have a stated maturity of June 15, 2027 and may be redeemed in whole or in part at our option at any time or from time to time on or after June 15, 2024 at a redemption price of \$25 per security plus accrued and unpaid interest. The 2027 Notes bear interest at a rate of 6.25% per year, payable quarterly on March 30, June 30, September 30 and December 30 of each year, commencing on September 30, 2022. The 2027 Notes are our direct unsecured obligations and (i) rank equally in right of payment with our current and future unsecured indebtedness; (ii) are senior in right of payment to any of our future indebtedness that expressly provides it is subordinated to the 2027 Notes; (iii) are effectively subordinated to all of our existing and future secured indebtedness (including indebtedness that is initially unsecured to which we subsequently grant security), to the extent of the value of the assets securing such indebtedness, and (iv) are structurally subordinated to all existing and future indebtedness and other obligations of any of our subsidiaries. As of March 31, 2026, we were in material compliance with the terms of the 2027 Notes. The 2027 Notes are listed on the New York Stock Exchange under the symbol “HTFC”.

#### *2028 Notes*

On December 15, 2025, we issued and sold an aggregate principal amount of \$57.5 million of 7.00% notes due in 2028 in a private transaction. The 2028 Notes have a stated maturity of December 15, 2028 and may be redeemed in whole or in part at any time at our option through June 15, 2028, at a redemption price equal to the greater of: (1)(a) the sum of the present values of the remaining scheduled payments of principal and interest thereon discounted to the redemption date on a semi-annual basis at the Treasury Rate plus 50 basis points less (b) interest accrued to the date of redemption, and (2) 100% of the principal amount of the 2028 Notes to be redeemed, plus, in either case, accrued and unpaid interest thereon to, but not including, the redemption date. On or after June 15, 2028, we may redeem the 2028 Notes, in whole or in part, at any time and from time to time, at a redemption price equal to 100% of the principal amount of the 2028 Notes being redeemed plus accrued and unpaid interest there onto the date of redemption. The 2028 Notes bear interest at a rate of 7.00% per year, payable semi-annually on June 15 and December 15 of each year, commencing on June 15, 2026. The 2028 Notes are our direct unsecured obligations and (i) rank equally in right of payment with our current and future unsecured indebtedness; (ii) are senior in right of payment to any of our future indebtedness that expressly provides it is subordinated to the 2028 Notes; (iii) are effectively subordinated to all of our existing and future secured indebtedness (including indebtedness that is initially unsecured to which we subsequently grant security), to the extent of the value of the assets securing such indebtedness, and (iv) are structurally subordinated to all existing and future indebtedness and other obligations of any of our subsidiaries. As of March 31, 2026, we were in material compliance with the terms of the 2028 Notes.

***Convertible Notes******2030 Convertible Notes***

On September 4, 2025, we entered into the 2030 Note Purchase Agreement, by and among us and each purchaser named therein, in connection with the issuance and sale of \$40.0 million aggregate principal of our 5.50% 2030 Convertible Notes in a transaction exempt from registration pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended. We received net proceeds (before expenses) from the sale of the 2030 Convertible Notes of approximately \$36.6 million.

The 2030 Convertible Notes have a stated maturity of September 4, 2030, unless earlier converted or repurchased in accordance with their terms. The 2030 Convertible Notes bear interest at a rate of 5.50% per year, payable monthly in arrears on the last day of each calendar month, beginning on September 30, 2025.

At any time on or after October 4, 2025, at our sole option, we may redeem, from time to time, the 2030 Convertible Notes in whole or in part, out of funds legally available for such redemption, at 100% of the principal amount prepaid plus accrued but unpaid interest to but excluding the date of prepayment.

Each holder of a 2030 Convertible Note has the right, at such holder's option, to convert any such 2030 Convertible Note, at any time on or after October 4, 2025 and prior to the close of business on the business day immediately preceding the maturity date, into such number of shares of our common stock equal to the principal balance of the 2030 Convertible Note being converted on the conversion date plus the accrued but unpaid interest on the 2030 Convertible Note as of the conversion date, divided by the greater of (i) volume-weighted average closing sale price for the five trading days immediately prior to the relevant conversion date, or (ii) our most recently reported NAV per share immediately prior to the date of exercise.

No holder of 2030 Convertible Notes may exercise its conversion right if upon conversion the holder would receive shares that would cause funds and accounts managed by the investment adviser to such funds and accounts and any person controlled by the parent company of such investment adviser to beneficially own in the aggregate more than 4.99% of the shares outstanding at such time.

The 2030 Convertible Notes are not listed on any exchange and may not be transferred without our consent.

During the three months ended March 31, 2026, the holders of a portion of the 2030 Convertible Notes converted \$15.1 million in outstanding principal of the 2030 Convertible Notes plus accrued but unpaid interest on such outstanding principal as of the conversion date into 2,118,250 shares of common stock at a weighted average conversion price of \$7.12 together with cash in lieu of fractional shares, in accordance with noteholder conversion notice.

As of March 31, 2026 and December 31, 2025, the aggregate outstanding principal balance of the 2030 Convertible Notes was \$16.5 million and \$31.5 million, respectively.

***2031 Convertible Notes***

On October 17, 2024, we entered into the 2031 Note Purchase Agreement, by and among us and each purchaser named therein, in connection with the issuance and sale of \$20.0 million aggregate principal of our 7.125% 2031 Convertible Notes in a transaction exempt from registration pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended. We received net proceeds (before expenses) from the sale of the 2031 Convertible Notes of approximately \$18.6 million.

The 2031 Convertible Notes have a stated maturity of October 17, 2031, unless earlier converted or repurchased in accordance with their terms. The 2031 Convertible Notes bear interest at a rate of 7.125% per year, subject to additional interest or repurchase obligation upon certain events, payable quarterly in arrears on March 31, June 30, September 30 and December 31 of each year, beginning on December 31, 2024. If an investment grade rating is not maintained with respect to the 2031 Convertible Notes, additional interest of 1.00% per annum will accrue on the 2031 Convertible Notes until such time as the 2031 Convertible Notes have received an investment grade rating of "BBB-" (or its equivalent) or better. We will also be required to pay additional interest of 2.00% per annum (x) on any overdue payment of interest and (y) during the continuance of an Event of Default (as defined in the 2031 Note Purchase Agreement). In addition, on the occurrence of a Change in Control Repurchase Event (as defined in the 2031 Note Purchase Agreement) or Delisting Event (as defined in the 2031 Note Purchase Agreement), we will generally be required to make an offer to purchase the outstanding 2031 Convertible Notes at a price equal to 100% of the principal amount of such 2031 Convertible Notes plus accrued and unpaid interest to the repurchase date.

At any time on or after April 17, 2025, at our sole option, we may redeem, from time to time, the 2031 Convertible Notes in whole or in part, out of funds legally available for such redemption, at 100% of the principal amount prepaid plus accrued but unpaid interest to but excluding the date of prepayment.

Each holder of a 2031 Convertible Note has the right, at such holder's option, to convert any such 2031 Convertible Note, at any time on or after April 17, 2025 and prior to the close of business on the business day immediately preceding the maturity date, into such number of shares of our common stock equal to the principal balance of the 2031 Convertible Note being converted on the conversion date plus the accrued but unpaid interest on the 2031 Convertible Note as of the conversion date, divided by the greater of (i) volume-weighted average closing sale price for the five trading days immediately prior to the relevant conversion date, or (ii) our most recently reported NAV per share immediately prior to the date of exercise.

No holder of 2031 Convertible Notes may exercise its conversion right if upon conversion the holder would receive shares that would cause funds and accounts managed by the investment adviser to such funds and accounts and any person controlled by the parent company of such investment adviser to beneficially own in the aggregate more than 4.99% of the shares outstanding at such time.

The 2031 Convertible Notes are not listed on any exchange and may not be transferred without our consent.

During the three months ended March 31, 2026 and 2025, the holders of the 2031 Convertible Notes did not convert any of the 2031 Convertible Notes.

As of March 31, 2026 and December 31, 2025, the aggregate outstanding principal balance of the 2031 Convertible Notes was \$2.8 million.

***Other assets***

As of March 31, 2026 and December 31, 2025, other assets were \$9.9 million and \$9.1 million, respectively, which were primarily comprised of debt issuance costs and prepaid expenses.

**Contractual obligations and off-balance sheet arrangements**

The following table shows our significant contractual payment obligations and off-balance sheet arrangements as of March 31, 2026:

	Payments due by period				
	Total	Less than 1 year	1 – 3 Years	3 – 5 Years	After 5 years
	(In thousands)				
Borrowings	\$ 450,200	\$ 25,783	\$ 235,460	\$ 186,207	\$ 2,750
Unfunded commitments	155,000	91,667	63,333	—	—
Incentive fee deferral	28,178	11,878	16,300	—	—
Total	<u>\$ 633,378</u>	<u>\$ 129,328</u>	<u>\$ 315,093</u>	<u>\$ 186,207</u>	<u>\$ 2,750</u>

In the normal course of business, we are party to financial instruments with off-balance sheet risk. These consist primarily of unfunded commitments to extend credit, in the form of loans, to our portfolio companies. Unfunded commitments to provide funds to portfolio companies are not reflected on our balance sheet. Our unfunded commitments may be significant from time to time. As of March 31, 2026, we had unfunded commitments of \$155.0 million. This includes \$15.0 million of undrawn revolver commitments. These commitments are subject to the same underwriting and ongoing portfolio maintenance requirements as are the financial instruments that we hold on our balance sheet. In addition, these commitments are often subject to financial or non-financial milestones and other conditions to borrowing that must be achieved before the commitment can be drawn. Since these commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. We regularly monitor our unfunded commitments and anticipated refinancings, maturities and capital raising, to ensure that we have sufficient liquidity to fund unfunded commitments. As of March 31, 2026, we reasonably believed that our assets would provide adequate financial resources to satisfy all of our unfunded commitments.

In addition to the Credit Facilities, we have certain commitments pursuant to our Investment Management Agreement entered into with our Advisor. We have agreed to pay a fee for investment advisory and management services consisting of two components (1) a base management fee equal to a percentage of the value of our gross assets less cash or cash equivalents, and (2) a two-part incentive fee. We have also entered into a contract with our Advisor to serve as our administrator. Payments under the Administration Agreement are equal to an amount based upon our allocable portion of our Advisor's overhead in performing its obligations under the agreement, including rent, fees and other expenses inclusive of our allocable portion of the compensation of our Chief Financial Officer and Chief Compliance Officer and their respective staffs. See Note 3 to our consolidated financial statements for additional information regarding our Investment Management Agreement and our Administration Agreement.

The incentive fee on Pre-Incentive Fee Net Investment Income is subject to a fee cap and deferral mechanism which is determined based upon a look-back period of up to three years and is expensed when incurred. For this purpose, the Incentive Fee Look-back Period includes the relevant calendar quarter and the 11 preceding full calendar quarters. Each quarterly incentive fee payable on Pre-Incentive Fee Net Investment Income is subject to the Incentive Fee Cap and Deferral Mechanism. The Incentive Fee Cap is equal to (a) 20.00% of Cumulative Pre-Incentive Fee Net Return during the Incentive Fee Look-back Period less (b) cumulative incentive fees of any kind paid to our Advisor during the Incentive Fee Look-back Period. To the extent the Incentive Fee Cap is zero or a negative value in any calendar quarter, we will not pay an incentive fee on Pre-Incentive Fee Net Investment Income to our Advisor in that quarter. To the extent that the payment of incentive fees on Pre-Incentive Fee Net Investment Income is limited by the Incentive Fee Cap, the payment of such fees will be deferred and paid in subsequent calendar quarters up to three years after their date of deferment, subject to certain limitations, which are set forth in the Investment Management Agreement. During the three months ended March 31, 2026 and 2025, the Incentive Fee Cap and Deferral Mechanism resulted in deferral of \$0.4 million and \$2.1 million, respectively, of incentive fee which may become subject to payment up to three years after the date of deferment. As of March 31, 2026 and December 31, 2025, the total amount subject to recoupment was \$28.2 million and \$28.0 million, respectively. Commencing with the quarter ending March 31, 2025 and terminated with the quarter ending December 31, 2025, our Advisor agreed to waive the portion of its quarterly income incentive fee, if any, if and to the extent that, after payment of such portion, our net investment income per share for such quarter would be less than the quarterly distribution per share declared in such quarter. During the three months ended March 31, 2025, our Advisor did not earn an income incentive fee.

**Distributions**

In order to qualify and be subject to tax as a RIC, we must meet certain source-of-income, asset diversification and annual distribution requirements. Generally, in order to qualify as a RIC, we must derive at least 90% of our gross income for each tax year from dividends, interest, payments with respect to certain securities, loans, gains from the sale or other disposition of stock, securities or foreign currencies, income derived from certain publicly traded partnerships, or other income (including but not limited to gains from options, futures or forward contracts) derived with respect to our business of investing in stock, securities or other currencies. We must also meet certain asset diversification requirements at the end of each quarter of each tax year. Failure to meet these diversification requirements on the last day of a quarter may result in us having to dispose of certain investments quickly in order to prevent the loss of RIC status. Any such dispositions could be made at disadvantageous prices or times, and may cause us to incur substantial losses.

In addition, in order to be subject to tax as a RIC and to avoid the imposition of corporate-level tax on the income and gains we distribute to our stockholders in respect of any tax year, we are required under the Code to distribute as dividends to our stockholders out of assets legally available for distribution each tax year an amount generally at least equal to 90% of the sum of our net ordinary income and net short-term capital gains in excess of net long-term capital losses, if any. Additionally, in order to avoid the imposition of a U.S. federal excise tax, we are required to distribute, in respect of each calendar year, dividends to our stockholders of an amount at least equal to the sum of 98% of our calendar year net ordinary income (taking into account certain deferrals and elections); 98.2% of our capital gain net income (adjusted for certain ordinary losses) for the one year period ending on October 31 of such calendar year; and any net ordinary income and capital gain net income for preceding calendar years that were not distributed during such calendar years and on which we previously did not incur any U.S. federal corporate-level income tax. If we fail to qualify as a RIC for any reason and become subject to corporate-level income tax, the resulting corporate-level income taxes could substantially reduce our net assets, the amount of income available for distribution and the amount of our distributions. Such a failure would have a material adverse effect on us and our stockholders. In addition, we could be required to recognize unrealized gains, incur substantial taxes and interest and make substantial distributions in order to re-qualify as a RIC. We cannot assure stockholders that they will receive any distributions.

## Horizon Technology Finance Corporation and Subsidiaries

To the extent our taxable earnings in a tax year fall below the total amount of our distributions made to stockholders in respect of such tax year, a portion of those distributions may be deemed a return of capital to our stockholders for U.S. federal income tax purposes. Thus, the source of a distribution to our stockholders may be the original capital invested by the stockholder rather than our income or gains. Stockholders should review any written disclosure accompanying a distribution payment carefully and should not assume that the source of any distribution is our ordinary income or gains.

We have adopted an “opt out” dividend reinvestment plan, or DRIP, for our common stockholders. As a result, if we declare a distribution, then stockholders’ cash distributions will be automatically reinvested in additional shares of our common stock, net of applicable withholding taxes, unless a stockholder specifically “opts out” of our DRIP. If a stockholder opts out, that stockholder will receive cash distributions. Although distributions paid in the form of additional shares of our common stock will generally be subject to U.S. federal, state and local taxes, stockholders participating in our DRIP will not receive any corresponding cash distributions with which to pay any such applicable taxes. If our common stock is trading above NAV, a stockholder receiving distributions in the form of additional shares of our common stock will be treated as receiving a distribution of an amount equal to the fair market value of such shares of our common stock. We may use newly issued shares to implement the DRIP, or we may purchase shares in the open market in connection with our obligations under the DRIP.

### Related party transactions

We have entered into the Investment Management Agreement with our Advisor. Our Advisor is registered as an investment adviser under the Investment Advisers Act of 1940, as amended. Our investment activities are managed by our Advisor and supervised by our Board, the majority of whom are independent directors. Under the Investment Management Agreement, we have agreed to pay our Advisor a base management fee as well as an incentive fee. During the three months ended March 31, 2026 and 2025, our Advisor earned \$4.9 million and \$3.2 million pursuant to the Investment Management Agreement.

On March 31, 2025, Monroe closed a transaction pursuant to which Momentum US Bidco LLC, an affiliate of Wendel SE, acquired 75% of the outstanding equity interests of Monroe Capital Intermediate Holdings, LLC, the indirect parent company of our Advisor, and certain other affiliates of Monroe (or the “Transaction”). The closing of the Transaction resulted in a change in control of our Advisor (the “Advisor Change in Control”). The Advisor Change in Control did not substantially or adversely affect us.

On April 14, 2026, we completed our previously announced merger with MRCC, the Merger Sub, Monroe Capital BDC Advisors, LLC, and the Advisor, pursuant to the Agreement and Plan of Merger, dated as of August 7, 2025 (the “Merger Agreement”). See “Item 2 — Management’s Discussion and Analysis of Financial Condition and Results of Operations — Overview” for additional information about the Mergers.

We have also entered into the Administration Agreement with our Advisor. Under the Administration Agreement, we have agreed to reimburse our Advisor for our allocable portion of overhead and other expenses incurred by our Advisor in performing its obligations under the Administration Agreement, including rent and our allocable portion of the costs of compensation and related expenses of our Chief Financial Officer and Chief Compliance Officer and their respective staffs. In addition, pursuant to the terms of the Administration Agreement our Advisor provides us with the office facilities and administrative services necessary to conduct our day-to-day operations. During the three months ended March 31, 2026 and 2025, our Advisor earned \$0.6 million and \$0.4 million, respectively, pursuant to the Administration Agreement.

Our Advisor has granted us a non-exclusive, royalty-free license to use the service mark “Horizon Technology Finance.”

We believe that we derive substantial benefits from our relationship with our Advisor. Our Advisor and its affiliates may manage other investment vehicles with similar or overlapping investment strategies as us. Our Advisor may provide us with an opportunity to co-invest with other investment vehicles managed by our Advisor, Monroe and/or their affiliates. Under the 1940 Act, absent receipt of exemptive relief from the SEC, we and our affiliates are precluded from co-investing in negotiated investments with other funds and accounts sponsored or managed by our Advisor, Monroe and their affiliates. Since June 30, 2023, we and our Advisor have relied on exemptive relief from the SEC granted to certain affiliates of Monroe on October 15, 2014, as amended on January 10, 2023. Monroe, et al. filed an application on May 14, 2025, and amendments to the application on August 6, 2025 and October 3, 2025, for a new exemptive relief order for co-investments for the Company, the Advisor, Monroe and its affiliates. On November 21, 2025, a notice of the filing of the application was issued (Investment Company Act Release No. 35799). On December 17, 2025, the SEC granted an order for such exemptive relief (File No. 812-15798). The exemptive relief affords our Advisor greater flexibility to negotiate the terms of co-investments if our Board determines that it would be advantageous for us to co-invest with other accounts sponsored or managed by our Advisor, Monroe or their affiliates in a manner consistent with our investment objectives, positions, policies, strategies and restrictions as well as regulatory requirements and other pertinent factors.

### Critical accounting policies

The discussion of our financial condition and results of operation is based upon our financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles, or GAAP. The preparation of these consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Changes in the economic environment, financial markets and any other parameters used in determining such estimates could cause actual results to differ. In addition to the discussion below, we describe our significant accounting policies in the notes to our consolidated financial statements.

We have identified the following items as critical accounting policies.

#### *Valuation of investments*

Investments are recorded at fair value. Pursuant to the amended SEC Rule 2a-5 of the 1940 Act, on July 29, 2022, our Board designated our Advisor as the “valuation designee.” Our Board is responsible for oversight of the valuation designee. The valuation designee has established a Valuation Committee to determine in good faith the fair value of our investments, based on input of our Advisor’s management and personnel and independent valuation firms which are engaged at the direction of the Valuation Committee to assist in the valuation of certain portfolio investments lacking a readily available market quotation at least once during a trailing twelve-month period. The Valuation Committee determines fair values pursuant to a valuation policy approved by our Board and pursuant to a consistently applied valuation process. This valuation process is conducted at the end of each fiscal quarter, with at least 25% (based on fair value) of our valuation of portfolio companies lacking readily available market quotations subject to review by an independent valuation firm. We apply fair value to substantially all of our investments in accordance with Topic 820, *Fair Value Measurement*, of the Financial Accounting Standards Board’s, or FASB’s, Accounting Standards Codification as amended, or ASC, which establishes a framework used to measure fair value and

requires disclosures for fair value measurements. We have categorized our investments carried at fair value, based on the priority of the valuation technique, into a three-level fair value hierarchy. Fair value is a market-based measure considered from the perspective of the market participant who holds the financial instrument rather than an entity specific measure. Therefore, when market assumptions are not readily available, our own assumptions are set to reflect those that we believe market participants would use in pricing the financial instrument at the measurement date.

## Horizon Technology Finance Corporation and Subsidiaries

The availability of observable inputs can vary depending on the financial instrument and is affected by a wide variety of factors, including, for example, the type of product, whether the product is new, whether the product is traded on an active exchange or in the secondary market and the current market conditions. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. The three categories within the hierarchy are as follows:

- Level 1** Quoted prices in active markets for identical assets and liabilities.
- Level 2** Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not active and model-based valuation techniques for which all significant inputs are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

### *Income recognition*

Interest on debt investments is accrued and included in income based on contractual rates applied to principal amounts outstanding. Interest income is determined using a method that results in a level rate of return on principal amounts outstanding. Generally, when a debt investment becomes 90 days or more past due, or if we otherwise do not expect to receive interest and principal repayments, the debt investment is placed on non-accrual status and the recognition of interest income may be discontinued. Interest payments received on non-accrual debt investments may be recognized as income, on a cash basis, or applied to principal depending upon management's judgment at the time the debt investment is placed on non-accrual status. For the three months ended March 31, 2026, we recognized in interest income \$0.1 million from debt investments while on non-accrual status. For the three months ended March 31, 2025, we did not recognize any interest income from debt investments on non-accrual status.

We receive a variety of fees from borrowers in the ordinary course of conducting our business, including advisory fees, commitment fees, amendment fees, non-utilization fees, success fees and prepayment fees. In a limited number of cases, we may also receive a non-refundable deposit earned upon the termination of a transaction. Debt investment origination fees, net of certain direct origination costs, are deferred, and along with unearned income, are amortized as a level yield adjustment over the respective term of the debt investment. All other income is recorded into income when earned. Fees for counterparty debt investment commitments with multiple debt investments are allocated to each debt investment based upon each debt investment's relative fair value. When a debt investment is placed on non-accrual status, the amortization of the related fees and unearned income is discontinued until the debt investment is returned to accrual status.

Certain debt investment agreements also require the borrower to make an ETP that is accrued into income over the life of the debt investment to the extent such amounts are expected to be collected. We will generally cease accruing the income if there is insufficient value to support the accrual or if we do not expect the borrower to be able to pay the ETP due.

In connection with substantially all lending arrangements, we receive warrants to purchase shares of stock from the borrower. We record the warrants as assets at estimated fair value on the grant date using the Black-Scholes valuation model. We consider the warrants as loan fees and record them as unearned income on the grant date. The unearned income is recognized as interest income over the contractual life of the related debt investment in accordance with our income recognition policy. Subsequent to origination, the warrants are also measured at fair value using the Black-Scholes valuation model. Any adjustment to fair value is recorded through earnings as net unrealized gain or loss on investments. Gains and losses from the disposition of the warrants or stock acquired from the exercise of warrants are recognized as realized gains and losses on investments.

Realized gains or losses on the sale of investments, or upon the determination that an investment balance, or portion thereof, is not recoverable, are calculated using the specific identification method. We measure realized gains or losses by calculating the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment. Net unrealized appreciation or depreciation reflects the change in the fair values of our portfolio investments during the reporting period, including any reversal of previously recorded unrealized appreciation or depreciation, when gains or losses are realized.

### ***Income taxes***

We have elected to be treated as a RIC under Subchapter M of the Code and operate in a manner so as to qualify for the tax treatment applicable to RICs. In order to qualify as a RIC and to avoid the imposition of corporate-level U.S. federal income tax on the amounts we distribute to our stockholders, among other things, we are required to meet certain source of income and asset diversification requirements, and we must timely distribute dividends to our stockholders out of assets legally available for distribution each tax year of an amount generally equal to at least 90% of our investment company taxable income, as defined by the Code and determined without regard to any deduction for dividends paid. We, among other things, have made and intend to continue to make the requisite distributions to our stockholders, which will generally relieve us from incurring any material liability for U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year distributions into the next tax year and incur a 4% excise tax on such income, as required. To the extent that we determine that our estimated current year annual taxable income will be in excess of estimated current year distributions, we will accrue excise tax, if any, on estimated excess taxable income as taxable income is earned.

We evaluate tax positions taken in the course of preparing our tax returns to determine whether the tax positions are “more-likely-than-not” to be sustained by the applicable tax authority in accordance with ASC Topic 740, *Income Taxes*, as modified by ASC Topic 946, *Financial Services — Investment Companies*. Tax benefits of positions not deemed to meet the more-likely-than-not threshold, or uncertain tax positions, are recorded as a tax expense in the current year. It is our policy to recognize accrued interest and penalties related to uncertain tax benefits in income tax expense. We had no material uncertain tax positions at March 31, 2026 and December 31, 2025.

### **Recently issued accounting pronouncement**

In November 2024, the Financial Accounting Standards Board issued Accounting Standards Update, or ASU, No. 2024-03, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures* (Subtopic 220-40). ASU No. 2024-03 requires disaggregated disclosure of certain costs and expenses, including purchase of inventory, employee compensation, depreciation, amortization and depletion, within relevant income statement captions. ASU 2024-03 is effective for years beginning after December 15, 2026, and interim periods beginning after December 15, 2027. Early adoption and retrospective application are permitted. We are currently evaluating the impact ASU No. 2024-03.

### **Recent developments**

On April 1, 2026, we funded a \$15.0 million debt investment to a new portfolio company, Stellar Cyber, Inc.

On April 14, 2026, we closed the Merger with MRCC. In connection with the closing of the Merger, we received approximately \$141.1 million in cash and issued 20,370,645 shares of our common stock in the aggregate, or 0.9402 shares of our common stock for each share of MRCC common stock, to MRCC stockholders (and payment of cash in lieu of fractional shares). Former MRCC stockholders and our legacy stockholders own 29.86% and 70.14% of the combined company, respectively, immediately following the closing of the Merger.

On April 14, 2026, we repaid the outstanding balance of \$45.0 million on our Key Facility from the proceeds of our merger with MRCC.

On April 30, 2026, we funded a \$3.0 million debt investment to a new portfolio company, Bastille Buyer, Inc.

On April 30, 2026, we funded a \$4.0 million debt investment to a new portfolio company, Volt Bidco, Inc.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We are subject to financial market risks, including changes in interest rates. During the periods covered by our financial statements, the interest rates on the debt investments within our portfolio were primarily at floating rates. We expect that our debt investments in the future will primarily have floating interest rates. As of March 31, 2026 and December 31, 2025, 100% of the outstanding principal amount of our debt investments bore interest at floating rates. Contractual interest rates on our commitments to lend to our portfolio companies are typically based on the Prime Rate as published in the Wall Street Journal.

Based on our March 31, 2026 consolidated statement of assets and liabilities (without adjustment for potential changes in the credit market, credit quality, size and composition of assets on the consolidated statement of assets and liabilities or other business developments that could affect net income) and the base index rates at March 31, 2026, the following table shows the annual impact on the change in net assets resulting from operations of changes in interest rates, which assumes no changes in our investments and borrowings:

Change in basis points	Investment Income	Interest Expense	Change in Net Assets(1)
	(In thousands)		
Up 300 basis points	\$ 17,028	\$ 1,369	\$ 15,659
Up 200 basis points	\$ 10,463	\$ 913	\$ 9,550
Up 100 basis points	\$ 4,255	\$ 456	\$ 3,799
Down 300 basis points	\$ (3,922)	\$ (1,255)	\$ (2,667)
Down 200 basis points	\$ (2,884)	\$ (913)	\$ (1,971)
Down 100 basis points	\$ (1,581)	\$ (456)	\$ (1,125)

(1) Excludes the impact of incentive fees based on Pre-Incentive Fee Net Investment Income.

While our 2027 Notes, our 2028 Notes, our 2030 Convertible Notes and our 2031 Convertible Notes bear interest at a fixed rate, our Credit Facilities have floating interest rate provisions. The Key Facility is subject to an interest rate floor of 4.10% per annum, based on a prime rate index which resets monthly. The interest payable on the NYL Facility is based on the Three Year I Curve rate plus a margin of 2.95% with an interest rate floor and resets on any advance date. The interest payable on the Nuveen Facility is based on the United States Treasury constant maturity 3-year and 5-year rates plus a margin of 2.95% with an interest rate floor and resets on any advance date. Any other credit facilities into which we enter in the future may have floating interest rate provisions. We have used hedging instruments in the past to protect us against interest rate fluctuations, and we may use them in the future. Such instruments may include caps, swaps, futures, options and forward contracts. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in the benefits of lower interest rates with respect to the investments in our portfolio with fixed interest rates. Engaging in commodity interest transactions such as swap transactions or futures contracts on our behalf may cause our Advisor to fall within the definition of “commodity pool operator” under the Commodity Exchange Act (the “CEA”), and related Commodity Futures Trading Commission (the “CFTC”), regulations. On January 31, 2020, our Advisor claimed an exclusion from the definition of the term “commodity pool operator” under the CEA and the CFTC regulations in connection with its management of us and, therefore, is not subject to CFTC registration or regulation under the CEA as a commodity pool operator with respect to its management of us.

Because we currently fund, and expect to continue to fund, our investments with borrowings, our net income is dependent upon the difference between the rate at which we borrow funds and the rate at which we invest the funds borrowed. Accordingly, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net income. In periods of elevated interest rates, our cost of funds could increase, which would reduce our net investment income.

***Inflation, Market Volatility and Supply Chain Risk***

Economic activity has continued to accelerate across sectors and regions. Nevertheless, due to global supply chain issues, geopolitical events, a rise in energy prices and strong consumer demand as economies continue to reopen, inflation accelerated in the United States and globally before falling to lower levels at the end of 2023. Inflation may revive in the near to medium-term, particularly in the United States, with the advent of significant trade tariffs at the federal level, and monetary policy may tighten in response. Concerns over future increases in inflation, economic recession, as well as interest rate volatility and fluctuations in oil and gas prices resulting from global production and demand levels, as well as geopolitical tension, have exacerbated market volatility. Market uncertainty and volatility have also been magnified by actual and potential shifts in U.S. and foreign, trade, economic and other policies, including with respect to treaties and tariffs and uncertainty related to the upcoming 2026 U.S. midterm elections. Persistent inflationary pressures, foreign currency exchange volatility, volatility in global capital markets and concerns over actual and potential tariffs and sanctions could affect our portfolio companies’ profit margins.

**Item 4. Controls and Procedures**
***(a) Evaluation of disclosure controls and procedures***

As of March 31, 2026, we, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based on that evaluation, our management, including our Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective and provided reasonable assurance that information required to be disclosed in our periodic SEC filings is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. However, in evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of such possible controls and procedures.

***(b) Changes in internal controls over financial reporting.***

There have been no material changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our most recently completed fiscal quarter, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II****Item 1: Legal Proceedings.**

We are not currently subject to any material legal proceedings, nor, to our knowledge, are any material legal proceeding threatened against us. From time to time, we may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. Our business is also subject to extensive regulation, which may result in regulatory proceedings against us. While the outcome of any such future legal or regulatory proceedings cannot be predicted with certainty, we do not expect that any such future proceedings will have a material effect upon our financial condition or results of operations.

**Item 1A: Risk Factors.**

In addition to other information set forth in this quarterly report on Form 10-Q, you should carefully consider the factors set forth in “Item 1A Risk Factors” in our annual report on Form 10-K for the year ended December 31, 2025, which could materially affect our business, financial condition and/or operating results. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially affect our business, financial condition and/or operating results. Except as set forth below, there have been no material changes during the three months ended March 31, 2026 to the risk factors set forth in “Item 1A. Risk Factors” of our annual report on Form 10-K for the year ended December 31, 2025.

***The conflicts in the Middle East may impact regional and global economic markets.***

The ongoing conflicts in the Middle East, including the involvement of the United States and other countries, including Israel and Iran, as well as political and civil unrest related to the foregoing, could have severe adverse effects on regional and global economic markets. It is difficult to predict the conflicts’ impact on global and market conditions and, as a result, there is material uncertainty and risk with respect to us and our portfolio companies, and our ability and the ability of the portfolio companies to achieve their investment objectives.

**Item 2: Unregistered Sales of Equity Securities and Use of Proceeds**

None.

**Item 3: Defaults Upon Senior Securities**

None.

**Item 4: Mine Safety Disclosures**

Not applicable

**Item 5: Other Information****Rule 10b5-1 Trading Plans**

During the fiscal quarter ended March 31, 2026, none of our directors or executive officers adopted or terminated any contract, instruction or written plan for the purchase or sale of our securities to satisfy the affirmative defense conditions of Rule 10b5-1(c) or any “non-Rule 10b5-1 trading arrangement”.

**CERTIFICATION PURSUANT TO EXCHANGE ACT  
RULES 13a-14 AND 15d-14, AS ADOPTED PURSUANT  
TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

**CHIEF EXECUTIVE OFFICER CERTIFICATION**

I, Michael P. Balkin, as Chief Executive Officer of Horizon Technology Finance Corporation, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Horizon Technology Finance Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
